

# Small Food Waste Bin

Use the small food waste bin in your kitchen to store your food scraps before emptying into your large food waste bin.

Using a liner helps to stop food sticking to your bins.

Regularly cleaning your bins also helps keep them clean.

You can use kitchen towel, newspapers, shredded paper or compostable liners to line your bins.

**Kitchen Towel**

**Newspaper**

**Shredded Paper**

**Compostable Liners**

Compostable liners are available to purchase from most local supermarkets.

**If you are using compostable liners, please only use liners with this symbol to line your food waste bins.**
