Appendix 4 - Community projects not recommended for funding in 2017_18

	- Community projects not recommended for			
Item No.	Area Bedfont,Feltham and Hanworth	Peltham Community Development Association	Feltham Youth To maintain and develop a youth club for 7-12 year olds which offers a range of educational, social and recreational opportunities to vulnerable and disadvantaged young people. Our aim includes increasing their self-esteem, confidence and aspirations whilst diverting them from anti-social behaviour and providing them with essential skills through informal learning. The project will also provide holiday activities for the young people during the three half-term breaks and the summer.	Due to the limited amount of CIL funds available in the area and the estimated total cost of this scheme, this application has not been successful for funding. Unfortunately, no s106 funding can be found for this project.
2	Bedfont,Feltham and Hanworth	Anne Shine Support	Unity in diversity This project will celebrate Unity in Diversity within the Community, targeted at all. It will showcase people (tribes), culture (fashion), custom (cooking),and tradition (story telling) of selected countries within the community and their impacts. The celebration will be held at the Reach Academy 53-55 High St, Feltham TW13 4AB from 2 pm to 8 pm. The celebration will benefit the Hounslow residents who will learn about the people, their culture, their custom and tradition. It will therefore address misconceptions one might be holding. It will help the community to understand each individual, our likes and dislikes. help to heal wounds if any and bring people of all races together within the community.	Due to the limited amount of CIL funds available in the area and the estimated total cost of this scheme, this application has not been successful for funding. Unfortunately, no s106 funding can be found for this project.
3	Bedfont,Feltham and Hanworth	2nd Scout Group, Bedfont	2nd scout hut in Bedfont	A comprehensive assessment of these types of Council property is currently being carried out. Funding may be sourced following the outcomes of the assessment
4	Bedfont,Feltham and Hanworth	Age UK Hounslow	Improvements to Southville Community Centre - AUKH have agreed Head Of Term to acquire Southville Community Centre with effect from 16.10.17 on a full and repairing lease for 10 years. (we will not physically move in until basic required works are completed. • The HOT's include some works to make the premises fit for purpose but builders have identified the following for which there is no funding allocated • The brickwork in places needs to be re-pointed and as a result some brickwork poorly supported. • The UPVC cladding has become old and brittle, Some attempts to carry out repairs have been very unsuccessful - The cladding needs to be replaced. • Some sections of the building are formed with composite timber panels (the outside wall of the existing kitchen). The outside timber membrane has rotted and should be replaced – A coat of paint will not suffice. • The replacement windows and doors have never been finished – Daylight can be seen between the frame and the brickwork opening – these should urgently be sealed and UPVC cladding strips installed around the outside face of the opening to close off the void • The high level hall windows appear to have some kind of polycarbonate glass which is now badly scratched. These should be replaced with new. * We are also moving our very elderly and frail members from Sandbanks Day Centre to Southville aged 70 to 102.	Due to the limited amount of CIL funds available in the area and the estimated total cost of this scheme, this application has not been successful for funding. Unfortunately, no s106 funding can be found for this project.
5	Bedfont,Feltham and Hanworth	On behalf of the community of Hanworth Park with whom I have had extensive discussion, as well as being at St George's Church for over 25 years, I wish to place the following developments for the people onto any Plan or Development Doc	1) A School in Hanworth Park to serve the families of the 300 new homes already stated. The husband of Seema Malhotra, the Archdeacon of Middlessex, and CEO Hounslow Chamber of Commerce Stephen Fry and other noteables are on the St George's Primary School committee. The Dean of westminster Abbey is the Patron. 2) A multi-complex to serve the elderly on the Church land in Park Road with Dementia Unit, Nursing and Care Home, GP Centre, Day Centre, Creche for workers etc. 3) Social housing for the disadvantaged on the corner of Park Road on Church Land. 4) Other sites for housing and community use.	This proposal needs Planning permission before it can be considered for any CIL or s106 funding.
6	Bedfont,Feltham and Hanworth	Ward Councillors	Scout Hut, Bedfont Close, TW14 8LJ - 1. Need lighting for safety reasons along the footpath leading to the scout hut-Footpath runs alongside 39 Bedfont Close - footpath extends for about 100 yards across the green, is narrow and unlit and unsafe- can we get lighting down this footpath for safety reasons? Need to establish whether lighting along this path needs planning permission	A comprehensive assessment of these types of Council property is currently being carried out. Funding may be sourced following the outcomes of the assessment
7	Bedfont,Feltham and Hanworth	St Mary's Church Bedfont	Improvements at St Mary's Church, Hatton Road Bedfont TW14 8JR	Due to the limited amount of CIL funds available in the area and the estimated total cost of this scheme, this application has not been successful for funding. Unfortunately, no s106 funding can be found for this project.
8	Bedfont,Feltham and Hanworth	Southern avenue residents association	Bedfont lane community hall & Waterloo estate enhancements 1.Netting over multi use games area. 2.Enhanced CCTV for the estate(Via new plans being drawn up by lead member Clir Hanif Khan. 3.Community hall- internal decorating, Ceiling tiles replacement, New flooring. Air conditioning. 4.Gates at side of building adjacent to rear of Tynan close be brought forward to remove the "blind spot"for drugs activity. This area could then be developed as a community garden. 5.Landscaping of existing play areas.	Due to the limited amount of CIL funds available in the area and the estimated total cost of this scheme, this application has not been successful for funding. Unfortunately, no s106 funding can be found for this project.
9	Bedfont,Feltham and Hanworth	Faggs Road Allotments/ Heron way community allotment	Faggs Road Allotments/ heron way community allotment The group members numbering around 12 currently including people with physical and mental difficulty. 1. Dilapidated fence - site not secure anyone can walk in where it's broken 2. No sign outside as promised for over 2 years- can we get a sign stating they are allotments 3. LBH website isn't showing allotments- can we add them on the Hounslow website 4. Allotments are on another website, but Faggs Road isn't listed on this website- it is a statutory allotment- please get added to this website http://www.hounslow.info/parks-open-spaces/allotments/allotment-locations 5. People want to join but are not having success in signing up	Due to the limited amount of CIL funds available in the area and the estimated total cost of this scheme, this application has not been successful for funding. Unfortunately, no s106 funding can be found for this project.
10	Bedfont,Feltham and Hanworth	Friends of Bedfont Lakes Country park group	(1) dipping pond platform installed over the lake so that school groups, Brownies, Cubs etc that use the area can benefit from dipping in the lake with nets and exploring the wildlife and plant life that lays beneath the water. This would support the national curriculum at key stages 1 and 2. As a charity that has laid dormant for some years, we are bereft of funds and believe that the dipping platform would fit the criteria for funding from Section 106 money (2) a new toilet block at Bedfont Lakes on the opposite side of the park. Currently there is only one toilet block, comprising of three toilets, located at the Clockhouse Lane entrance. This means that people using the other entrances / play areas in the park are a long way from the toilet block, which for elderly people, young children and people with disabilities is often too far to access.	More work is required in relation to costings and long term Maintenance requirements. Recent Site visit with Head of Parks identified different priorities; Safety enhancements at the entrance by the Visitors centre. £50,000 would be beneficial but priorities need to be identified. Building a new toilet facility is not approved as a business case would need to be prepared with costs.
11	Bedfont,Feltham and Hanworth	Resident	Planting a new garden area to replace nettles/ weeds around Bridge House Pond - Restoring the planter next to the Airman pub on the tarmac 'triangle' - Landscaping works next to the Longford River between Victoria and Cardinal Road schools - New moveable planters on the area next to the War Memorial on the High Street.	The council are approving funding for the fence works at the pond and will consider proposals in this application at a later date.
12	Bedfont,Feltham and Hanworth		Old Job Centre (current Reach Academy site)- potential for a pocket park	The Council is looking at enhancements to greenspaces in Feltham Masterplan.
13	Bedfont,Feltham and Hanworth	Bedfont,Feltham and Hanworth Area Forum	Longford River - can LBH work with Royal Parks on a project to access the river? Three ponds in Feltham require new aeration equipment to reduce the weed/algae growth Feltham pond - Replacement of central island to something more attractive Feltham Pond - improve link between park and high street- make the park more welcoming, potentially more flower beds along the road side edge Feltham Pond - new and multi- purpose street furniture in the park New bench for Feltham Green (facing church)	Masterplanning of site will begin soon to consider how we improve quality of space. The Council has already approved £16,643 on 15th December 2015 SMD.
14	Bedfont,Feltham and Hanworth	Koinonia Consulting	St Richard's Church in Hanworth, The church is currently fundraising for a capital building project, to enhance the church centre to enable it better to serve the needs of the local community. Currently the much-used building is in a rather sorry state, made worse by repeated copper thefts from the roof in 2010-2011	Due to the limited amount of CIL funds available in the area and the estimated total cost of this scheme, this application has not been successful for funding. Unfortunately, no s106 funding can be found for this project.
15	Bedfont,Feltham and Hanworth	2nd Bedfont Scout Group	Our scout building is situated in the far corner of the green behind 39 Bedfont Close, TW14 8JL. It's about 100m from the road along a narrow unlit footpath. There is no authorised access for vehicles. Parents and carers would like a safe driveway to the entrance and a waiting area where they may leave their cars for a short time, whilst they drop off and pick their children. We would like to extend and improve the current path with low level lighting and a waiting area. I have been informed that whilst the borough is prepared to grant us the right to undertake these works and to assist in providing us with quotes and the relevant legal rights, they do not have the budget to fund it. We have been told that it may cost around £25k and we are hoping that you would be able to authorise the funding for it.	A comprehensive assessment of these types of Council property is currently being carried out. Funding may be sourced following the outcomes of the assessment

	Bedfont,Feltham and Hanworth	St Richard's Hanworth	Project Grow - transform our dilapidated church building into a fit-for-purpose community centre. Our	
16	Beatont, rettiam and Hanworth	St Nicial d S Hallworth	building, erected in 1965, was built on a very tight budget to serve the rapidly growing west London population, but is now falling apart around us and is utterly inadequate to serve the needs of current users. It	
			has suffered numerous metal thefts to the roof, corrosion in its concrete structure, water leaks, and is in a general	Dura ha ha liini ka dana sana af Cili funda surilahla ia ha asas and ha
			state of disrepair.	Due to the limited amount of CIL funds available in the area and the estimated total cost of this scheme, this application has not been successful for funding. Unfortunately, no s106 funding can be found
17	Bedfont,Feltham and Hanworth	Feltham Assembly Hall	Remedial works (health & safety and lifecycle) to Feltham Assembly Hall that pre-date and fall outside Fusion's	for this project.
			contractual responsibilities.	currently being carried out. Funding may be sourced following the outcomes of the assessment
18	Central Hounslow	Ward Councillors	Remedial works (health & safety and lifecycle) to Montague Hall that pre-date and fall outside Fusion's contractual responsibilities.	Due to the limited amount of CIL funds available in the area and the estimated total cost of this scheme, this application has not been successful for funding. Project should be re-submitted for funding
				when the future use of the site is clearer.
19	Central Hounslow	Age UK Hounslow	To meet demand we require more wheelchairs and following our impending move an External Store to house them. We wish to extend the high use the current service provides to include a home delivery wheelchair service.	Due to the limited amount of CIL funds available in the area and the estimated total cost of this scheme, this application has not been successful for funding. Funding is approved for the West area application. Recommendation to reapply in 2018/19 funding.
20	Central Hounslow	Holy Trinity Hounslow Church	Holy Trinity Hounslow Church Hounslow Street Team & The Light Bus Youth Project engage local young people who are disengaged with	Due to the limited amount of CIL funds collected in the area, the estimated total cost of this scheme (which is 62 times more than
			local services and in some cases, even the education system. The Light Bus	the CIL income) is not recommended or prioritise for funding. There is also no available Section 106 funds in this area for this type

37	Heston and Cranford	Ward Councillors	Wellington Juniors / Wellington Primary (split site) expansion project, new building on new site located on Church Meadow Playing field Sutton Lane - Improvement to foot bridge to improve pedestrian movement across the Piccadilly line, between the two sites – this is one of the planning conditions attached to the planning approval. Building works have commenced and will deliver additional classrooms in 2017 - £50k of S106 funding is being sought for the Foot bridge	Planning condition 15 associated with planning ref: 00083/L/P18 Waiting for the Schedule of works to improve the footbridge from the developer / case officer - funding will be assessed once the works have been outlined. Works about to commence.
38	Heston and Cranford	Ward Councillors	Remedial works (health & safety and lifecycle) to Heston Village Hall that pre-date and fall outside Fusion's contractual responsibilities	Deferred consideration, pending comprehensive assessment of these type of Council property. Funding will be sourced after outcomes of the Assessment
39	Heston and Cranford	Ward Councillors	Working with Kim Mitchell (Specialist Housing Manager) to try and deliver the play site upgrade at Redwood Estate These works have been approved to proceed by the Cranford and Heston Forum, they've been discussed with Councillor Bath and a positive residents consultation was undertaken to confirm what equipment is to be	This estate is on HRA land which will be part of a Housing assessment and funding arrangements
40	Isleworth and Brentford	Anne Shine Support Dance	installed as part of the upgrade. Anne Shine Support Dance Classes	More information is needed particularly on how this will be offered to the community and how it would benefit a greater number of residents.
41	Isleworth and Brentford	Air Quality Brentford	1) Hedge or living wall at the railings in between Middlesex Court, Glenhurst Road, Brentford and the busy A4 traffic. We have spoken with TfL about planting here to help mitigate the harmful effects of air pollution from the traffic, both for the residents of Middlesex Court and also the neighbouring residential roads beyond. I attach the 4 quotes received earlier this year for a variety of living walls. This option would need on-going maintenance costs, water and electricity to keep the plants alive. A better option might be a mature hedge being planted in to the ground. I had another meeting with TfL this morning (15 Sept) and they are going to look in to this idea again. There is a chance that TfL could match-fund the payment of this project. Cost of hedging would be cheaper than a living wall, see Mercury House below as an example.	The council could support this initiative however TFL would need to approve as on their land. We also need to establish the amount of fund being sought.
42	Isleworth and Brentford	Air Quality Brentford	Planting hedging around Mercury House on Glenhurst Road. I met with Patricia (Hounslow Homes), Fabio on behalf of Josef (Grounds Maintenance) earlier this year and they quoted £10,000 to plant the hedging. We were looking at the possibility of planting hedges around the perimeter of the grounds, a little like the laurel hedge in the private flats adjacent to it. The reason being to help mitigate the effects of pollution (NO2 and particulates harmful to human health) from the busy M4/A4 roads near by. We wouldn't want there to be additional expenses to the residents of Mercury House for the additional cost to maintain this. To summarise: - the length is approx 100m - Josef quoted £100/m for mature plants, compost and overtime to plant - giving us a total of £10,000	Due to the limited amount of CIL funding, the council does not consider this to be a priority that would benefit a greater number of residents/businesses in the community. Management and maintenance of this site under the remit of the Housing depart and we have passed this project on to them for consideration.
43	Isleworth and Brentford	The Smallberry Green Primary School	Affordable homes for key workers Refurbishment of an empty, uninhabitable caretaker's property on the edge of the school property, bringing it back into use as shared accommodation for key workers. This will help attract and retain teachers for local schools.	This is the same as our community school house scheme which we have received £57,375. Progress has been slow due to delays in decisions on a wider review of caretaking properties. The use of school caretaker accommodation is part of a survey that is currently being undertaken by the council and will inform a Policy that will address the use of a building if it is no longer required for a caretaker, rental , permission , maintenance. Any changes of use and building changes must in the first instance be agreed by the Council (Corporate Property) who is the Freeholder. Whilst the policy has not yet been confirmed the use of building for NQT is likely to included.
44	Isleworth and Brentford	Made In Tw8	Made In TW8 Promoting healthy eating, embedding life skills and strengthening community bonds through the delivery of cookery classes to all sections of Brentford society: schoolchildren, parents, older adults, adults with learning and physical disabilities.	Feasibility is difficult to determine based on the information provided: For large sums of money such as this, CPU and ourselves would usually request further detail be provided using a funding/grant application form inc. the below - Organisation experience of delivering programmes of this nature - Evidence of Need - A breakdown of cost - Target KPIs and process for monitoring of outcomes - Governance arrangements inc. Equal opportunities and Health and Safety etc We recommend the organisation re-apply in 2018/19 with a more detailed application
45	Isleworth and Brentford	Cole Park Allotment	Community log cabin and meeting room and toilet cabin. The proposed room will take the form of a wood/log cabin with a pitched roof, double entrance doors and windows along facing 10m side, all with wood frames. Additional double entrance doors to R/H end under gable to outdoor seating area. The cabin will be treated with preservative and stained or painted in suitable natural colours, greens, white, greys (to be agreed) The footprint of the building will be approx 10m x 6m and 2.8m height. Proposed Toilet: We would also like to install a toilet in a separate self contained wooden structure. The toilet will be a self composting toilet. (design and make to be agreed) The footprint of the toilet building will be approx. 2m x 2m and under 2.5m height. CPAA have raised funds of approximately £10,000 plus £2,500 for cost of foundations, which is in the bank and we seek an additional £20,000 for this project	Due to the limited amount of CIL funds the council does not consider this to be a priotrity at this time. We would need to understand the maintenance implication of this proposal and how the building would function on site as extra revenue implications could make this project unfeasible.
46	Isleworth and Brentford	Activebase CIO	Connecting Communities with Isleworth Public Hall Connect local residents to Isleworth Public Hall by providing volunteering programme, digital inclusion, modern technology and appreciation of this Grade II listed heritage asset. Activebase CIO is finalising a lease to provide local community management of Isleworth Public Hall from early 2018. This investment in technology and volunteers will improve the facilities offered to local groups and therefore increase usage. Once the lease is agreed we will consult existing hirers and other stakeholders on technology requirements, however current proposals are to provide: - fixed sound and projection equipment in the Main Hall and other key rooms, - hearing loops or similar audio assistance - public WiFi throughout the building - IT equipment - video production and presentation facility - music creation and editing facility. This is one project within a longer-term programme to establish Isleworth Public Hall as a sustainable Community Venue in the heart of Isleworth providing a hub for local community recreation, leisure, culture and education.	The council is supporting work at the Isleworth public hall for safety reasons (see the recommened for approval in 2017/18 list). However, due to limited funds we recommend any additional works required should be resubmitted in the next round of consultation for funding.
47	Isleworth and Brentford	Ward Councillors	Thornbury Park Phased Community Masterplanning for the Thornbury Park	Due to the limited amount of CIL funds available in the area and the estimated total cost of this scheme, this application has not been successful for funding. Unfortunately, no s106 funds matching this project can be found in this Local Area.
48	Isleworth and Brentford	Ward Councillors	Osterley Bowls Club Pavilion and pathways improvements to make fully accessible - Review parking regime on St Marys Crescent to enable better access to and greater use of Osterley Library and Osterley Bowls Club	Due to the limited amount of CIL funds available in the area and the estimated total cost of this scheme, this application has not been successful for funding. Unfortunately, no s106 funds matching this project can be found in this Local Area.
49	Isleworth and Brentford	The Feltham Phoenix Project	The Feltham Phoenix Project A large Community Project, taking place in the Feltham Arena Parklands, improving and maintaining the lands, creating events and activities, for people of all ages, creating a social and educational hub for all, with a Coffee Shop reflecting the area's heritage.	
50	Isleworth and Brentford	Ward Councillors	Cast iron Lamp posts installed in St Pauls Recreation Ground Suitable lanterns are something that can be incorporated into a PFI or grant application or again recovered from a PFI replacement as again, Parks and Footpaths are not bound by the same constrictions. I met with EL this week and whilst they want to work with us it would be through providing in kind i.e. labour, materials etc - unfortunately they may not be specialised enough for fountains and railings. The problem is with their proposed scheme being rental it doesn't free up cash for bigger projects so 106 may be a better option.	The council does not recommend lighting in parks as it can give a false sense of security and can encourage loitering after hours.
51	Isleworth and Brentford	The Isleworth Society	Coat/paint and/or enable suitable planting to disguise the unsightly municipal type railings installed bordering Northcote Avenue Allotments facing Twickenham Road and within Northcote Avenue	no s106 funding can be found for this project, the council has not prioritised this project for funding.
52	Isleworth and Brentford	1st Osterley Scout Group	Modernisation and extension to building for community purposes/scout group	Deferred consideration, pending comprehensive assessment of these type of Council's property. Funding will be sourced after outcomes of the Assessment
i.				

53	Isleworth and Brentford	Brentford Chamber of Commerce	Electronic Community Notice board in Brentford High street	Further investigation will be carried out to look at appropriate location, approximate costs - including maintenance and control
54	Isleworth and Brentford	Ward Councillors	Isleworth shopping area - Development of partnership initiatives to improve the environment, buildings, streetscape and shopping experience	Isleworth shopping area improvement initiatives are included in the Council's Regeneration Strategy and the Council will address delivery and funding at a later date. However, the Council hopes to complete a study that aims to identify the required improvements to this area. The feasibility of street markets will be first to look at.
55	Isleworth and Brentford	Trust Property Management Group	Riverside Mill House - 20 Church Street, Isleworth - Repainting of large crane that the Company (Riverside Mill House RTM Co Ltd) is responsible for maintaining	Due to the limited amount of CIL funds available in the area and as no s106 funding can be found for this project, the council has not prioritised this project for funding.
56	Isleworth and Brentford	Hounslow Arts Trust Ltd - trading as Watermans	Relocation of Watermans to Half Acre Watermans is the borough's major arts provider, situated in Brentford, and the only significant arts centre in West London. The organisation presents a year-round programme of high quality theatre, music, comedy & cabaret, exhibitions, festivals and independent cinema in its venue. It also delivers an extensive programme of community learning and engagement activities, including projects for children and young people, families with disabled children, and people experiencing mental illness. The venue itself acts as a hub and social space, informally for audiences and a wider local community, and semi-formally for local groups who regularly use its facilities for their own meet ups and activities. To deliver a bigger and better space, we need to raise an additional £6.4M. We are actively looking to raise these funds from a partnership approach of stakeholders with a commitment to the development of the best cultural scene possible for Brentford. We are in discussions with GLA and have submitted a bid to its Good Growth Fund. The Leader of the Council has opened discussions with Arts Council England about the potential for a further contribution. Both these sources are more likely to come to a successful conclusion if LB Hounslow is also able to contribute to this additional target. Arts Council England has already awarded us increased revenue funding for its next funding period, 2018-22, in recognition of the enhanced cultural programme that will be possible in a new building.	Due to the limited amount of CIL funds available in the area and as no s106 funding can be found for this project, the council has not prioritised this project for funding.
57	Isleworth and Brentford	Friends of Northcote Nature Reserve	To rejuvenate a neglected public open space for the benefit of local residents and transform the area into a nature reserve. The site is adjacent to, and benefits from, the tidal section of the River Crane which is designated a site of scientific importance	The Council is currently undertaking a Biodiversity Action Plan which will look at the feasibility of this project
58	Isleworth and Brentford	6th Brentford Air Scouts Group	Scout Hut restoration / rebuild	A comprehensive assessment of this type of Council property is currently being carried out. Funding may be sourced after outcomes of the Assessment
59	Isleworth and Brentford	Safe Air For All ("SAFA")	Install Air Quality Monitoring equipment to gather data on current status, and measure the changes brought about by the opening of Nishkam school in September 2018	The council consider that there are limited air quality issues at or near the proposed site for Nishkam school. The proposed school will, as part of its travel plans, provide minibuses for students to travel to/from school, to avoid additional traffic and associated emissions. The school has agreed to provide air quality assessment report, which does not show an exceedance. Therefore, the Council cannot justify a more elaborate monitoring network. The number of diffusions tubes needed generally depends on number of sensitive receptors impacted, and in this context OWGRA asking for 20 diffusion tubes seems overestimated as the Council's entire network has only 60 diffusion tubes
60	Isleworth and Brentford	Brentford Gate Footbridge	Brentford Gate Footbridge Building of a bridge from Ferry Lane in Brentford to Brentford Gate entrance to Kew Gardens	Due to the limited amount of CIL and s106 funds available in the area and the estimated total cost of this scheme, this application has not been successful for funding. We encourage you to apply for funding from statutory bodes like GLA, Charitable trust and foundations and Ports of London Authority Recommended for uploading on crowdfunding platform - the Leader has agreed to pledge £250k at that time.
61	Isleworth and Brentford	Long Mews Residents Association	Road is broken and unsafe and there is no access for emergency vehicles. Some vandalism. Requires new lighting, road refurbishments, bollards, parking lines, cctv & signage	Due to the limited amount of CIL and s106 funds available in the area and the estimated total cost of this scheme, this application has not been successful for funding.
62	Isleworth and Brentford Area	Afghanistan & Central Asian Association	Developing Community Integration Champions - Utilising ESOL pathways in Community Engagement The organisation has recently expanded it services in the London Borough of Hounslow, classified a super diverse cluster by the 2011 Census with most of the population living in areas more deprived than the national average. Developing Community Integration Education Champions – Schools Establish a development pathway from our ESOL students reaching sufficient English ability to accompany the programme facilitator to deliver interactive workshop/presentations at schools in Hounslow on their experience as: •Refugees •Asylum seekers •Efe, culture, religion, family and work in Afghanistan and Central Asian countries Whilst basic content about different cultures, geography etc. can be delivered in class by a teacher, the main focus of this programme is the direct relationship and exchange between the visiting presenter speaking from direct experience and the students, who are given the space to ask questions. By establishing relationships with schools, their teaching staff and governors, we are confident this pathway of exchange can be welcomed as a regular fixture in the local school programme of community engagement.	While this is in interesting project, the applicant has not provided a break down of the project costs. As a new project to the Borough demand has not yet been determined, the Council would like to see the program grow in the community further before providing CIL funding.
