

Feltham Arenas Parklands

Phase 1 Works

Feltham Library, The centre, High St, Feltham TW13 4GU

Friday 8th June 2018 - Monday 2nd July 2018

Following feedback from our previous public consultation, Phase 1 of Feltham Arenas Parklands Masterplan will **prioritise improvements in access and security**, with a particular focus on reducing crime and anti-social behaviour.

Phase 1 works include the following priorities:

- Key pedestrian entrances to the park to be made more attractive and welcoming to pedestrians and cyclists, whilst restricting motorbikes and mopeds (1-5).
- Two new pedestrian/cycle paths including an accessible path over the mound (6) and two new footbridges across the Longford River (7).
- New lighting along the proposed new primary path (8) and improvements to lighting along the existing footpath on the eastern boundary (9).
- Improvements to the park frontage at Hounslow Road entrance (10) and a new cricket pitch within Feltham Park (11). Football pitches relocated to Glebelands (12).
- Vegetation clearance and better management of trees and shrubs to improve sightlines around key entrances and along pathways.

Consultation boards on Phase 1 will be available for comments in Feltham Library from Friday 8th June to Monday 2nd July 2018.
