## London Borough of Hounslow

## Workforce Information 2018

The Equality Act 2010 addresses discrimination on grounds of age, disability, gender reassignment, marriage and civic partnership, pregnancy and maternity, religion or belief, sex and sexual orientation. Collectively these categories are known as "protected characteristics". A key measure of the Act is the public sector Equality Duty, as supported by the Equality Act 2010 (Specific Duties) Regulations 2011. This requires public bodies to publish information to show their compliance with the Equality Duty, including workforce data.

This report presents a range of information on employees who share protected characteristics. The data is gathered from the council's HR system, or HR case management records. It relates only to those employees of the Council on permanent, fixed term and temporary staff at 31 December 2018 and does not include casual/sessional or school based staff.

## Workforce profile

The total headcount of employees is 2245 ; total number of posts is 2265 and this equates to a total FTE count of 2044.1. The headcount of school based staff at 31 December 2018 is 3613 ; this figure reflects those schools maintained by the Council, i.e. schools who have bought back into core council services e.g. HR and Payroll.

At the time of the data being extracted the workforce was divided among the two directorates as follows:

| Directorate | People | $\%$ | Posts | FTE |
| :--- | ---: | :---: | ---: | ---: |
| Chief Executive Directorate | 818 | $36 \%$ | 824 | 784.05 |
| Children's, Health \& Adult's Services | 1427 | $64 \%$ | 1441 | 1260.04 |
| Total | $\mathbf{2 2 4 5}$ |  | $\mathbf{2 2 6 5}$ | $\mathbf{2 0 4 4 . 0 9}$ |

A council restructuring in 2018 has resulted in a downsizing from three directorates to two. The movement of the Housing, Planning \& Communities department into CED explains the increase in staffing in this directorate from 19\% in 2017 to $36 \%$ in 2018.

Overall the Council's workforce has continued in a downward trend. For a third consecutive year the number of directly employed staff has declined; a reduction of $4.6 \%$ from the 2017 headcount of 2353.

The key protected characteristics of the workforce are set out in the tables below:

| Age Band | No. of <br> people | $\%$ |
| :--- | ---: | :---: |
| $16-19$ | 6 | $0.3 \%$ |
| $20-24$ | 49 | $2.2 \%$ |

| Refused | 70 | $3.1 \%$ |
| Yes | 2245 |  |
| Total |  |  |

Age
There has been a reduction in employees below the age of 25 ; in 2017 they formed $4.9 \%$ of the workforce, this went down to $2.4 \%$ in 2018. In contrast employees aged 55 and above rose from $26.3 \%$ in 2017 to $28.5 \%$ in 2018. A corporate apprenticeship strategy will be launched shortly that will help to attract young people into local government.

## Disabled Staff

Disabled staff make up $4.2 \%$ of the workforce where a disability has been declared (calculated by excluding the category no data recorded). This is a slight increase from the previous year's figure of $4 \%$. The Council is certified as a Disability Confident Committed Employer and are in the process of working towards the next level of self-assessment.

## Gender

The number of women as a percentage of the workforce has again seen an increase from the previous year; in 2017 women constituted $65.8 \%$ of the workforce, whereas in 2018 they represent $68.2 \%$.

The council's mean gender pay gap has improved between 2018 and 2017. In 2018 our mean pay gap was $3 \%$ compared with $7 \%$ in 2017. Across the London Boroughs, there were 8 boroughs with a higher mean gender pay gap than Hounslow in 2017 but this improved in 2018 when there were 20 boroughs with a higher mean gender pay gap than Hounslow.

In 2018, 34 employees commenced maternity leave and 36 employees returned to work from maternity leave. Compared to 2017 figures there is little change in those returning ( $2.8 \%$ increase), however the numbers of women going on maternity has seen a reduction of $20.9 \%$, thereby continuing a downward trend for the third consecutive year.

## Ethnicity

BME represent 46.6\% of the workforce who declared their ethnicity, up from last year's figure of 45.5\%. Efforts to encourage staff to complete their personal sensitive data has seen a reduction in the number of no data recorded; this figure went down from $17.6 \%$ in 2017 to $15 \%$ in 2018. This continues to be a focus for HR and our unknown profile is continuing to improve.

The bar chart below compares the ethnicity of the Council's workforce with that of Hounslow borough residents of working age i.e. 16-85+. The total BME staff within the Council remains comparable to those economically active within the local community; $46.6 \%$ within the council and $46.3 \%$ within the Borough.

The gap between Asian staff and those economically active within the community has improved slightly and now stands at $12 \%$ (see chart below), down from last year's figure of $14 \%$. The percentage of Black staff in the council continues to be higher than those economically active within the community to increase; up by a further $1 \%$ in 2018 from previous year. There is no change in the gap between White employees and those economically active in the Borough; it remains at $9 \%$.

NB. The Borough resident figures are based on the 2011 census figures.

## Employment Related Data

The following employment information on leavers, grievances, disciplinaries, recruitment activity, and new appointments, has been gathered for the period 1 January - 31 December 2018. Where comparative data is available efforts have been made to analyse with the previous year's data.

## Leavers

The council's turnover rate in 2018 is $21 \%$, this is lower than the previous year's turnover rate of $24.9 \%$. During the year 484 employees left the council; their reasons for leaving are as follows:

|  | No. of people | $\%$ |
| :--- | :---: | :---: |
| Dismissal - discipline | 6 | $1.2 \%$ |
| Dismissal - sickness | 5 | $1.0 \%$ |
| Dismissal - other | 4 | $0.8 \%$ |
| Redundancy | 85 | $17.6 \%$ |
| Resignation | 240 | $49.6 \%$ |
| Retirement | 31 | $6.4 \%$ |
| Other | 113 | $23.3 \%$ |
|  | 484 |  |

The category "Dismissal - other" includes dismissals during probationary or where an exit settlement is reached. The category "Other" includes death, end of a contract, and transfer of staff, including Transfer of Undertakings (Protection of Employment) Regulations (TUPE) transfers.

484 employees, which is $21.6 \%$ of the workforce, left employment during 2018 . This is a reduction on the previous year's figure of $25.7 \%$. Resignations were the main reason for leaving in 2018, this is a change from last year when TUPE transfers had resulted in Other as the main reason for leaving. The number of redundancies as a reason for leaving (85 in 2018) rose by $8.7 \%$ compared to last year.

The protected characteristics for these leavers are provided below.

| Reasons for Leaving | Dismissals |  |  | Redundancy | Resignation | Retirement | Other | Total |

Staff leaving the Council are encouraged to complete a voluntary exit survey via an on-line questionnaire. During 2018 only 9 questionnaires were completed; this represents $1.9 \%$ of the employees who left employment. This continues a downward turn in returns for the fourth year running. In 2015, returns had been $9.34 \%$ of leavers, in 2016 the figure was $5.9 \%$ and in 2017 it was $2.8 \%$.

The significantly low return rate means that any analysis is inconclusive and not meaningful, therefore no such data is provided. Human Resources will consider how best to increase completion returns.

## Grievances and Disciplinaries

The level of grievances and disciplinaries recorded over the last five years are illustrated in the graph. The number of disciplinaries in 2018 doubled from the previous year. Grievances have also seen an increase and the 2018 figure of 22 is the highest over the last 5 years. As a percentage of the workforce this equates to $1.7 \%$ for disciplinaries and $0.98 \%$ for grievances. This compares to a percentage of $1.1 \%$ and $0.64 \%$ respectively for the year 2014.

Departmentally the disciplinaries and grievances in 2018 are:

|  | Disciplinaries | $\%$ | Grievances | $\%$ |
| :--- | :---: | :---: | :---: | :---: |
| Chief Executive's Directorate | 24 | $86 \%$ | 16 | $73 \%$ |
| Children's, Health \& Adult's 14 $50 \%$ <br> Services 28  <br> Total  $\quad$22 |  |  |  |  |

The tables below provide a range of information on those employees who either lodged a grievance or were subject to disciplinary action. For comparison data from the preceding four years is also listed.

## Recruitment Activity

The following tables show recruitment data in 2018, including numbers of applicants, candidates shortlisted and where an offer was made. This information is collated from the council's e-recruitment system. Not all
recruitment activity is carried out via the e-recruitment system. For this reason, data is also provided on new starters separately in the section titled new appointments.

The level of recruitment activity increased in 2018 to 152 posts, compared to 77 in 2017 . This explains the $45.7 \%$ increase in numbers of applicants compared to the previous year.

## New Appointments

This information on new starters has been collated from the councils HR System, not the e-recruitment system which provided the data on recruitment activity. Examples of situations where employees have been appointed, not using the on-line system, include recruitment via search agencies, agency workers moving to Fixed Term or permanent contracts, permanent employees being appointed into other posts within the organisation. The total number of employees starting in 2018 is 363 ; this is the same figure as last year. When considering the increased level of recruitment activity, this suggests that a greater proportion of new starters were processed via the on-line recruitment as opposed to alternative recruitment avenues e.g. recruitment agencies.

The tables below provide further details of the new starters.
