Staines Road, Feltham: Cycling and walking improvements:

Provision of entry treatment, pedestrian crossing, one way service road, and waiting restriction changes.

Statement of Reasons

Entry Treatment

The Council is proposing to introduce flat-topped road hump in Kingston Avenue at its junction with Staines Road to help to control vehicle speeds and create an improved environment for cycling and walking.

Parallel Pedestrian/ Cyclist Crossing

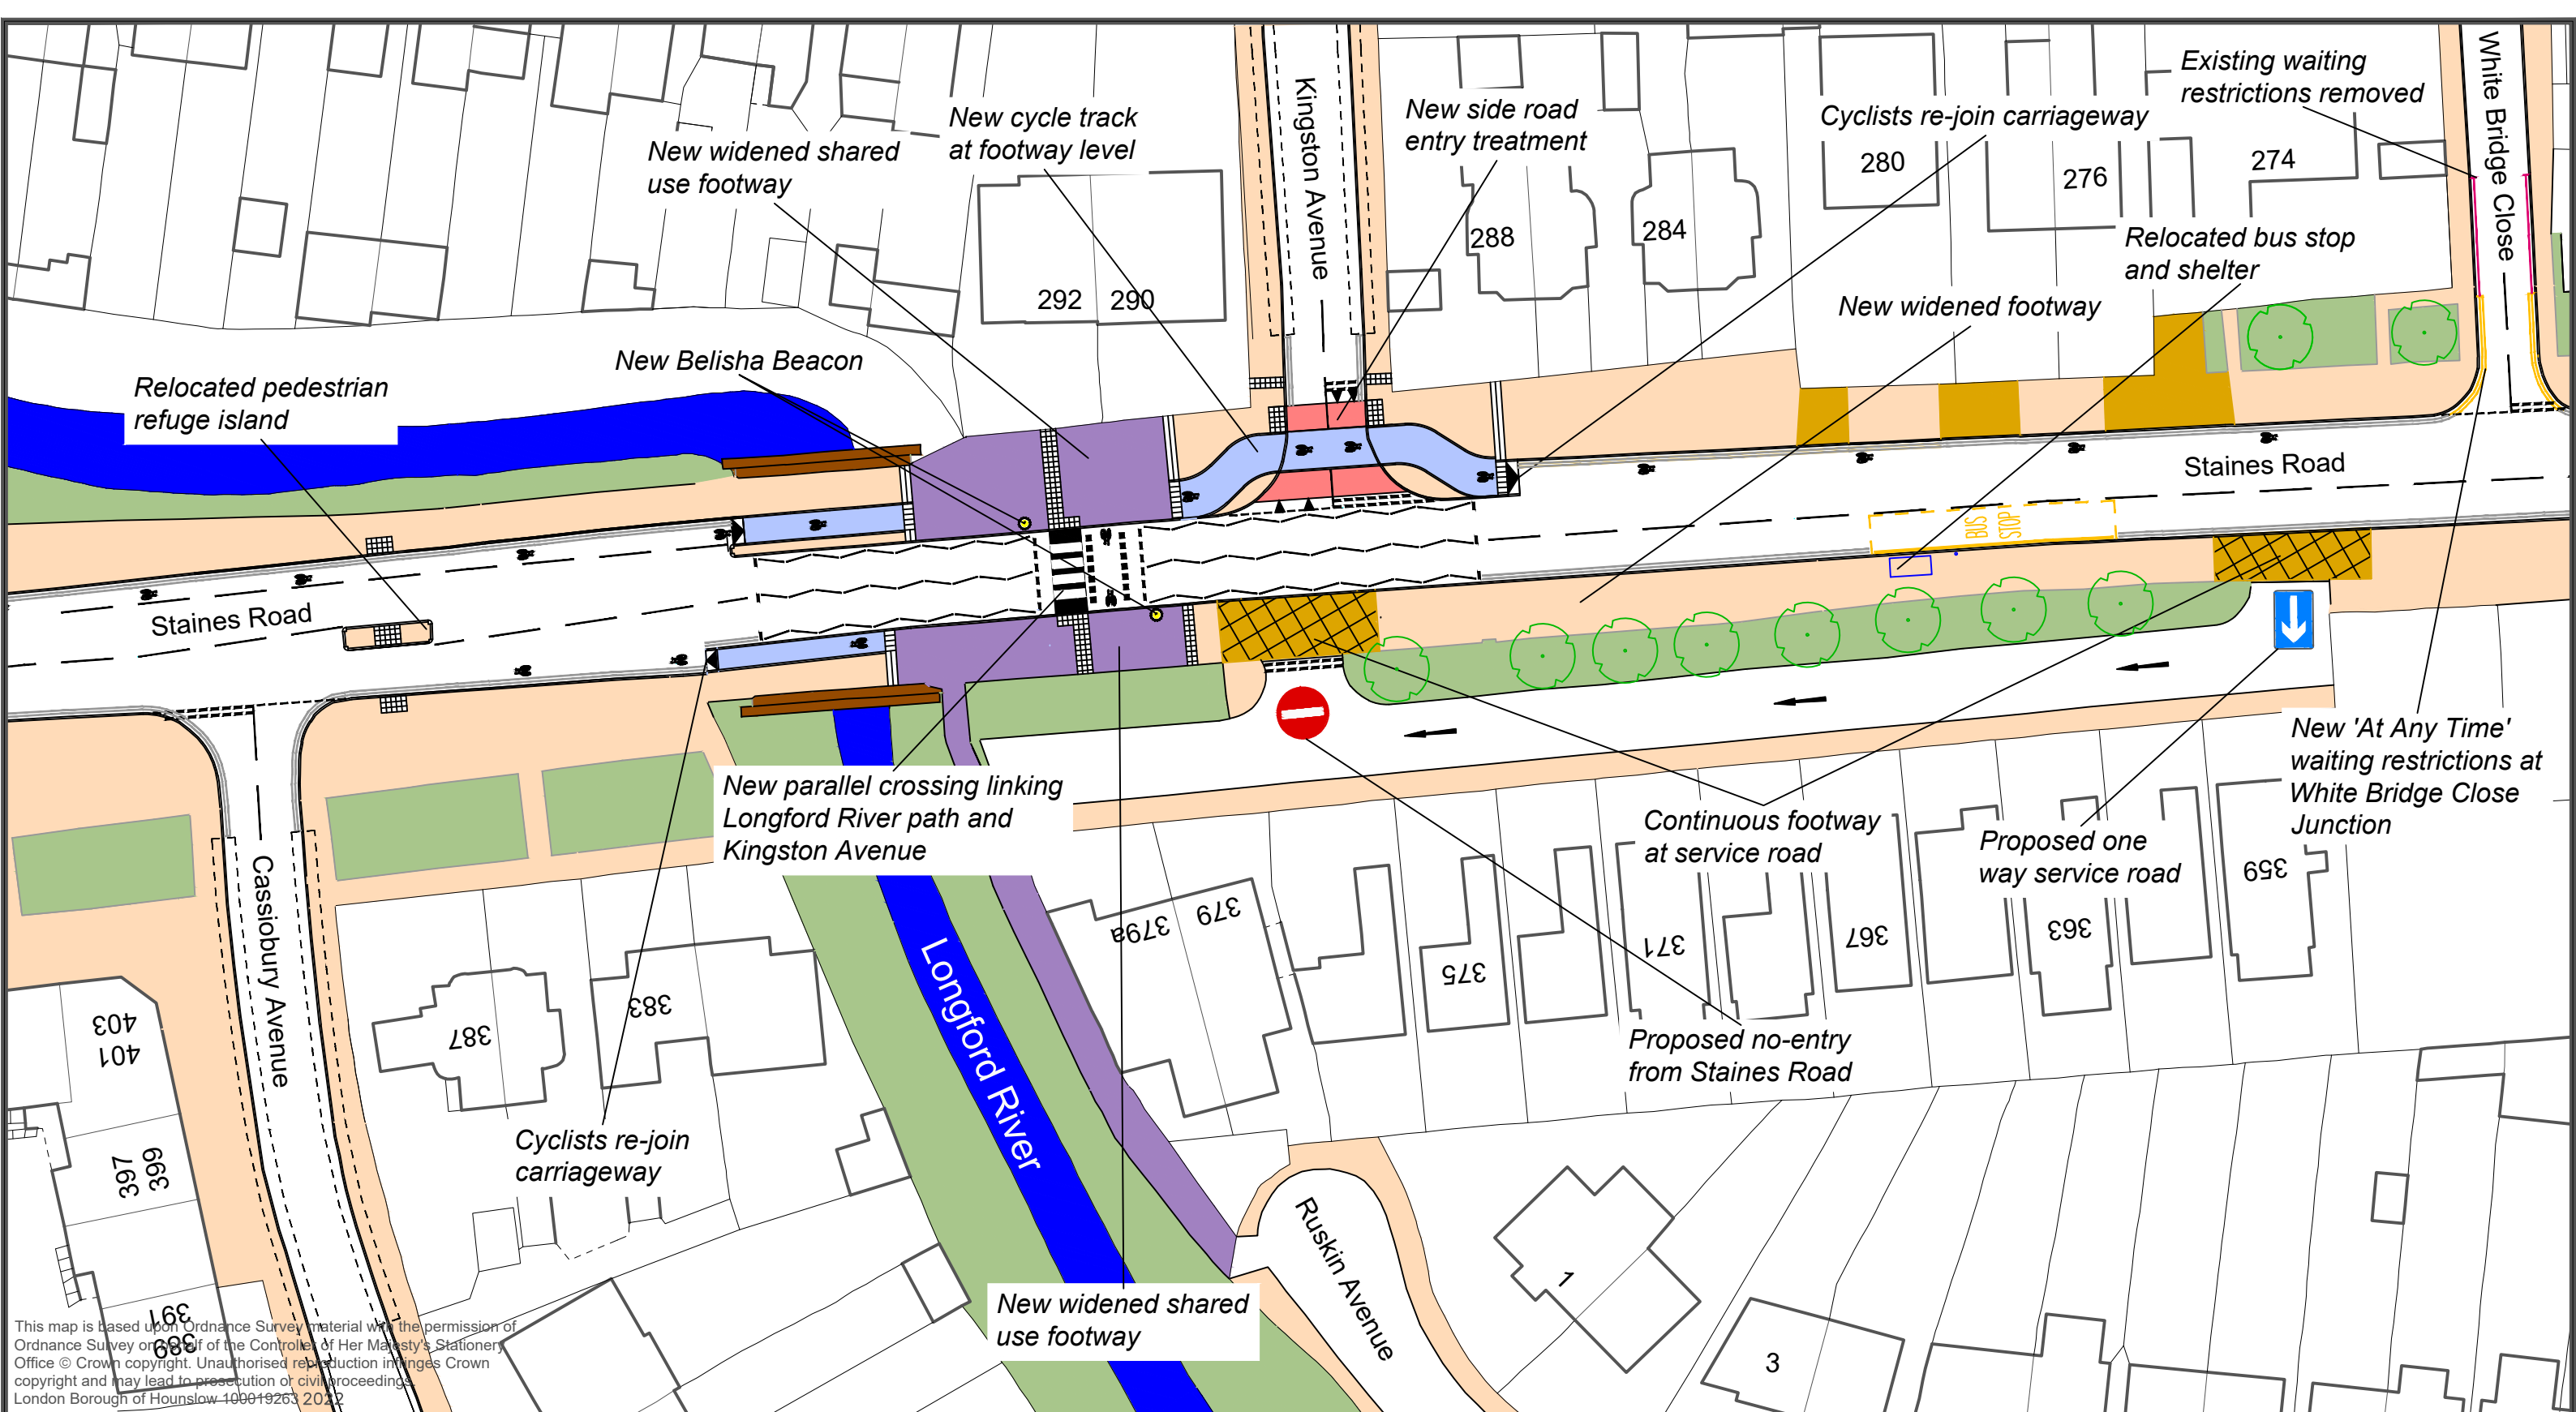

The Council is proposing to introduce a parallel crossing to provide a controlled facility for pedestrians and cyclists to cross Staines Road, and allow for cycle movements on cycle priority route one between Heathrow and Feltham.

One-way working service road serving Nos 359 – 379 Staines Road

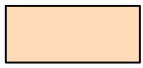

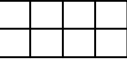

The Council is proposing to improve the current traffic management arrangements on Staines Road and the service road by reducing vehicle movement at these junctions and potential for road traffic accidents to occur.

Waiting Restriction Changes

The Council is proposing to update the Traffic Order to replace the existing single yellow lines with double yellow lines (as currently marked) in Whitebridge Close, from its junction with Staines Road northwards for 10 metres. The Council is also proposing to remove the double yellow lines marked in Whitebridge Close between 10 and 18 metres north of its junction with Staines Road. The double yellow lines will ensure there is no parking at the junction at all times which will improve safety for all road users. Removing the single yellow lines will allow for more unrestricted parking in Whitebridge Close.
