

Review of an Education Health and Care Plan Parent Views

The annual review meeting is where you, your child or young person, the education provider and any professionals attending will jointly review your child or young person's **progress towards outcomes in their Education, Health and Care Plan (EHCP)**.

This form is to help you to prepare for this meeting. It also may help you to draft some amendments to Part A of the EHCP ready for the next update of the EHCP.

Will the EHCP be amended or updated after the review meeting?

The Local Authority is **not** expected to update the EHCP every year and outcomes are generally set for 2 or 3 years ahead. We understand that all children develop and change so some aspects of the EHCP are likely to be out of date. Review minutes are stored alongside the EHCP, so the latest information is always available to those who need it.

The Local Authority always updates EHCPs before key transition points (e.g. nursery to infants, primary to secondary, or into post 16 education) with new outcomes looking forward to the end of the next phase of education. In other years, we amend if provision cannot be properly delivered without a change being made. We will send you a letter soon after the meeting telling you whether we plan to update the EHCP.

Your contribution

If you wish to, please attach an up to date photograph of your child (must be printable in black and white), a drawing by them or a contribution chosen by your child or young person.

If you have already provided your views to someone else (e.g. a SENCO, social worker), or wish to wait for the review meeting itself, you do not have to complete this form. You can also choose to give us your views in a different way e.g. just a simple note or an email.
