***Updated 2025***

# Foreword

The London Borough of Hounslow has some superb greenspaces that everyone can be proud of. They are places where people can relax, enjoy nature, play, or take part in cultural and historic activities and recreation. They are essential for the health and well-being of our residents, and they are vibrant spaces for our communities.

In Hounslow, we are committed to stimulating a strong and robust green recovery related to our Greener Borough Framework and Climate Emergency. The Council's Green and Blue Infrastructure Strategy will play a key role in delivering the Greener Borough Framework and sets out key priorities for our greenspaces in areas such as health and wellbeing, regeneration, climate change and nature recovery.

The London Borough of Hounslow considers the Green Flag Award process as a key step towards positively developing our greenspaces within this strategic framework and in partnership with our communities. It provides a vision, with clear objectives and priorities for how the Council and its partners would like to see greenspaces managed for future years.

This plan is not only the commitment from the Council to improve our greenspaces but is an important recognition of the support and commitment of the friends of parks, community groups, local clubs, third sector and partners who share our visions and work with us to respond to our green agenda.

# Acknowledgements

This plan has been produced by Lampton Services Greenspace\* (GS) and the London Borough of Hounslow (LBH) Parks Team with input from the Friends of Turnham Green. In addition, it is important to acknowledge the great contribution from all interested groups for their commitment and dedication in supporting the development, promotion, and management of Turnham Green.

\*Lampton Services Greenspace (GS) is part of the Lampton Limited Group and is a company wholly owned by London Borough of Hounslow with an aim of returning value to the Council representing a bold new ambitious approach.

# Purpose of the Plan

The Management Plan for Turnham Green has been prepared by LBH and GS with input from the Friends of Turnham Green. The plan is specifically developed for the individual site with a dedicated Green Flag Action Plan.

This plan has been developed following detailed assessment of the Green Flag Award criteria and a comprehensive collaborative review of the existing uses, management, and maintenance of Turnham Green.

As part of the development of the plan, detailed consultation has taken place with the Lampton Services Greenspace parks maintenance and management team, LBH officers and Friends groups.

The Management plan is a 'working document' that brings together all the information relating to Turnham Green and will be updated, revised, and annually reviewed. This plan has been developed based on the Commission for Architecture and the Built Environment (CABE) Space document "*A Guide to Producing Park and Greenspace Management Plans*" and the "*Green Flag Award Guidance Manual*" guidelines.

## Policy & Strategic Context

Actions and aims within this management plan are both guided by, and relate back, to wider Council strategies. The development of parks and open spaces are a vital component of the Council's Corporate Plan 2022 – 2026. Our work during this period is focused on six priority ambitions for a borough that is greener, healthier, cleaner, thriving, safer, and livable. Green infrastructure contributes in many ways to helping us achieve these priorities.

A key approach of Hounslow Council is working under the concept of "One Hounslow" where services are delivered without silos, working for specific outcomes with several internal council departments, community groups, NGOs, and government bodies.

Parks and open spaces play an important role in the approach highlighted in the Council's Joint Health and Wellbeing Strategy with start, live and age well, preventing ill-health, which in turn has an impact on reducing costs within the wider economy, the Council, and the NHS.

The Council's Equalities and Diversity Strategy 2023, created to improve equality, diversity, and inclusion - sets out an ambitious approach to target policies and funding to the areas which need them most to thrive. The strategy is based on three pillars - Equality by Place, Equality by Group, and Equality as Employer. Hounslow Council has committed to transform the opportunities and life-chances of communities in the borough's 30 most disadvantaged neighbourhoods.

The Council approved the Greener Borough Framework 2020-30 which seeks to provide a high-level framework to deliver on the Council's ambition and aspirations for the borough through enhancing our environment and reducing our use of resources. The framework is part of a wider ambitious green agenda bringing different people and organisations together to discover, engage, innovate, and deliver.

The adoption of the Green and Blue Infrastructure Strategy and Nature Recovery Plan are the pillar of the strategic framework for the development of our parks and open spaces and their management plans through the Green Flag Award process.

### Parks Funding

The Council's Parks service is funded by an annual salary and contract revenue budget for base line ground maintenance activities, and provided by our service providers, Lampton Services Greenspace, to maintain all of Hounslow's parks and open spaces, including allotments, cemeteries, trees, countryside and other workstreams.

Current capital funding has been allocated through a parks improvement project, and sites which require improvement will be prioritised. This funding will cover 2 years of project delivery and staff resourcing 2023 – 2025. Other capital funding is obtained via Community Infrastructure Levy (CIL); S106, the Councils Thriving Communities fund (local CIL) and other grants and initiatives. These are applied for annually or as necessary and are based on need and strategic investment required by both the Council and local communities.

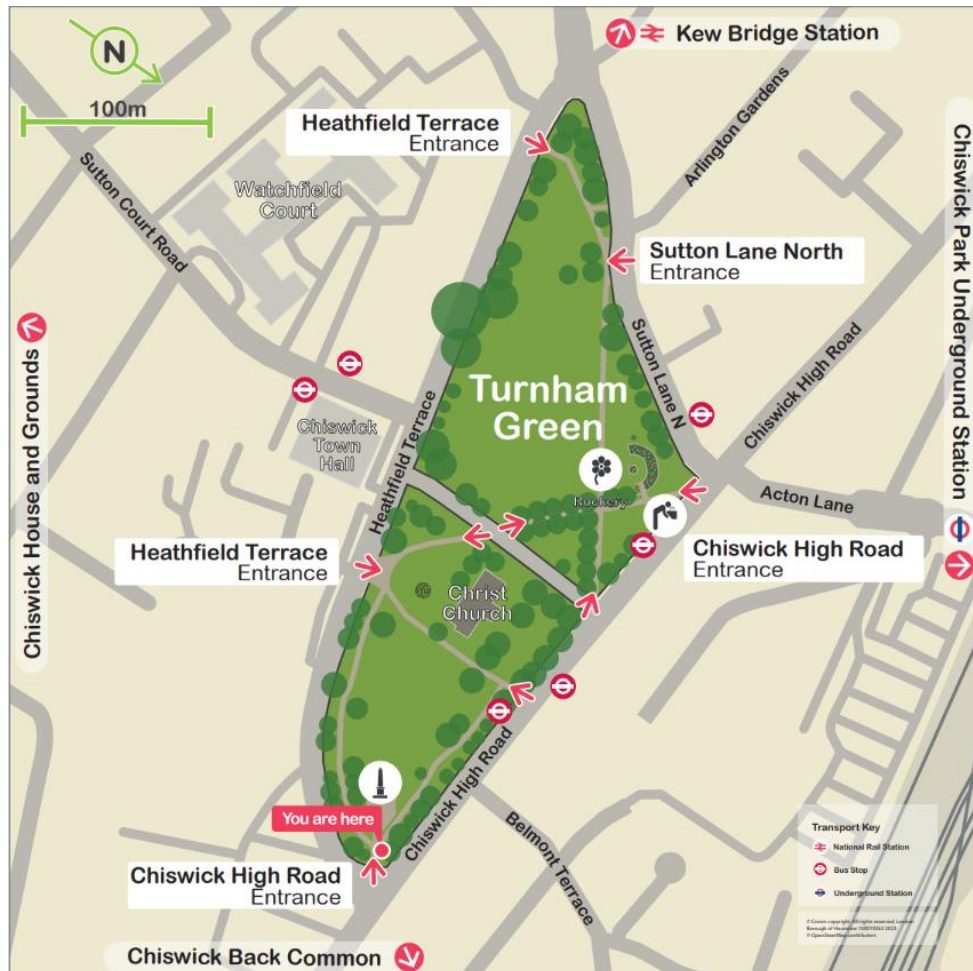

# Where are we now?

## Site Description & Facilities

Turnham Green is a triangular open space bisected by roadway that runs from north to south past the west end of Christ Church. In the centre is Christ Church and a war memorial stands of the eastern corner in the form of an obelisk. The western green is home to the rockery, drinking fountain and wildflower meadow.

### Site Information

**Name:** Turnham Green

**Contacts:** 020 8583 5555

**Web:** [www.hounslow.gov.uk](http://www.hounslow.gov.uk)

**Designation:** Open Space

**Size:** 2.8ha

**Byelaws:** A copy can be downloaded at [www.hounslow.gov.uk](http://www.hounslow.gov.uk)

**Access:** open access at all times

**Transport:** **Train:** Chiswick or Kew Bridge Station

**Buses:** 237/267/272/391/440/H91

**Address:** Chiswick High Road

**Email:** [parks@hounslow.gov.uk](mailto:parks@hounslow.gov.uk)

**Ownership:** London Borough of Hounslow

**Tube:** Chiswick Park

**Parking:** Street parking/pay and display

**Local Facilities:** Wildflower meadow, war memorial, rock garden, drinking fountain, seating, play garden, Church.

## Detailed History

In 1630 a hamlet separate from the riverside settlement at Chiswick was firmly established around Turnham Green, with 60 ratepayers. In 1821 the Horticultural Society of London began to lay out a garden that extended from the south of the green towards Chiswick. The society organised an annual fête that was the forerunner of the modern Chelsea flower show.

Turnham Green is former common land and is of historical interest as the place where the Earl of Essex collected his forces from the London area in the Civil War and drew them up in great numbers here, although there was little active fighting and Essex later took possession of Brentford.

In 1642 an army of 24,000 Roundheads assembled to prevent Charles I from reaching London; nearly a thousand men died in the ensuing Battle of Turnham Green.

In an infamous incident in 1680, the Earl of Pembroke killed an innocent bystander with a thrust of his rapier while in a drunken rage; Pembroke was temporarily held in the Cock and Half Moon tavern, but his high status effected his release, and he escaped punishment. Sir George Barclay and 40 conspirators plotted in vain to assassinate William III upon the green in 1696.

The common was rife with highwaymen and in 1776 a lone gunman robbed the Lord Mayor of London and his retinue. None of this lawlessness deterred several noble families from establishing country retreats here in the 18th century, while the village grew in significance as a coaching halt on the road to Bath.

The image below is an early Victorian view across Turnham Green to Arlington House, which was demolished in the 1870s and is now the site of Arlington Park Gardens and Walpole Gardens housing.

Near Christ Church and along the north boundary with Chiswick High Road is a war memorial to the east, but otherwise the Green is simply laid out with grass, paths, and a few mature trees. Some planting of trees took place post WWII including cherry trees planted along the path from the church to the northwest corner of the Green. In 1873 a pond is shown on the west side of the Green, but this was filled in by 1948.

Also, by 1948 a triangle of land at the eastern end was cut off by the widening of the road accessing Heathfield Terrace overlooking the south side of the Green, and likewise at the eastern end a footpath was upgraded to a road to access the Terrace.

Turnham Green has been subject to many developments in the past 20 years. The most notable being the works to the war memorial in the early 1990's, which was surrounded by paving, hedging, planting, and fencing, using the poppy motif throughout to reflect its meaning and use.

The access gates opposite the town hall were widened to allow access for event vehicles in the late 1990's.

## Recent Developments

### Achievements 2024

- Continued success of wildflower meadow
- Repair works to water pipe leading to the church
- Installation of new signage
- New bench installations

### Achievements 2023

- Installation of a drinking water fountain
- Replaced hedging with fencing on Tommy Hollis Memorial Garden

### Achievements 2022

- The meadow has recovered well from the difficulties arising out of COVID-19 in 2020, with many of the perennial wildflowers growing better than in previous years. Many local people expressed their appreciation, especially when it reached its summer peak.
- The Council planted all trees by the end of March 2022
- Large scale bulb-planting works carried out by Friends of Turnham Green in Autumn 2022
- Works funded and approved for installation of a water fountain on the green, due to complete by April 2023
- Planting plan from last year implemented and supported throughout the extremely hot summer of 2022.
- Replacement of failed planting around the play garden, again due to the difficult summer

## Achievements 2021

The meadow has recovered well from the difficulties arising out of COVID-19 in 2020, with many of the perennial wildflowers growing better than in previous years. Many local people expressed their appreciation, especially when it reached its summer peak.

- Continuation of tidying and weeding in the rockery area by FoTG volunteers
- Planting of new bulbs in the rockery by local schoolchildren
- Hanging light display on trees for Christmas with natural willow balls created by local schools and voluntary groups.
- The Council received proposals for tree planting on Turnham Green. A survey detailing the proposals was launched in November 2021 for 8 weeks where the majority would determine the outcome. The results of the survey showed the community strongly supported all proposed tree planting.
- New seating within the rockery
- Improvements and tidying of the War Memorial

## Achievements 2020

- Updated site litter bins
- Installation of the Play Garden in memory of Tommy Hollis - (local Chiswick child, fatally injured at almost one year of age by a falling lamp post while in his pram.) - in collaboration with his family, Hounslow Council made a commitment to create a place for young children to play in memory. The Play Garden is designed to stimulate awareness of the natural environment with play opportunities in an urban setting. This includes a maze, logs, duck sculpture, and spring bulbs aimed at pre-school and infant aged children. Log seats have also been installed.

## Previous Achievements

- The Rockery is very popular and so the Friends where possible give the plants the attention needed to help them through periods of reduced rain, also weeding and the effects of heavy use.
- The wildflower meadow was sown in 2012 – it brought much public admiration. The Perennials have taken longer to establish; however, the Heathland corner manages itself well. The bigger area is enhanced annually with areas of annual seed sewing to reduce Thistles, Mudwort and Small burdock which- continue to dominate in the meadow sword. 2019 did show a reduction of invasives and the Green Gym assisted with pulling these out.
- Bulb planting took place in the east side of the Green.
- Chiswick Site Attendant continues to roam between 3 local parks and maintains the grounds.
- A local ward Councillor regularly leads area litter picking, including the Green and some weeding and planting activity on the Green where necessary.

- The footpaths were resurfaced and widened between 2012 and 2014 to reflect increased usage. The old carpet bedding site in the East side of the Green was turned into the herb/Knot Garden with the Friends in partnership with Abundance London (<https://abundancelondon.com/>) The old toilet block and park keeper's hut was transformed into the rockery, opening the area up and lowering the levels of anti-social behaviour in this area. In 2016 new boundary fencing works have increased security in the park. This means the park is safer for families with young children.

# Where do we want to go?

## Green Flag Analysis

The ambition for LBH in partnership with GS and community groups is to continue to work to improve standards and develop parks and opens spaces strategically according to corporate priorities and local needs.

A clear connection between the criteria identified by the Green Flag Award Scheme and the main points gained from the SWOT analysis and site review completed with the Stakeholders of Turnham Green has helped to establish a comprehensive management plan for this site.

The management plan process is described below the section “How do we get there?”.

## Consultation & Co-design

The Council has a strong partnership with the Friends of Turnham Green. Co-designing the future of the park together in most initiatives and opportunities.

Continuous dialogue is in place through regular communication and a quarterly forum where Friends discuss wider issues and learn from each other to improve overall management standards.

LBH works in close partnership with GS with monthly project and development team meetings where the monitoring and progress of these plans are discussed.

LBH engage annually with Friends groups and community groups in compiling these management plan and their progress.

Ward Councillors and the Lead Cabinet Member for Recreation, Public Spaces and Parking are regularly updated on parks development projects and strategies.

Liaison with the Hounslow Met Police and the Councils Enforcement Team on matters around ASB and public safety.

## SWOT Analysis

A SWOT analysis is a management critique to identify Strengths, Weaknesses, Opportunities and Threats to help shape future improvements.

<b>STRENGTHS</b> <ul style="list-style-type: none"><li>• Wildflower meadow</li><li>• War memorial</li><li>• Rock garden</li><li>• Friends Group</li><li>• Spring bulbs along the northern edge of the east Green</li><li>• Play Garden</li><li>• Ongoing maintenance of the meadow</li><li>• Additional tree stock</li><li>• New signage is in place.</li><li>• New water fountain is in place.</li><li>• New bench installations</li></ul>	<b>WEAKNESSES</b> <ul style="list-style-type: none"><li>• Condition of paint on some sections of railings</li><li>• Some identified issues with condition of seating and other street furniture, related to overuse.</li></ul>
<b>OPPORTUNITIES</b> <ul style="list-style-type: none"><li>• Events</li><li>• Further biodiversity opportunities across the meadow</li></ul>	<b>THREATS</b> <ul style="list-style-type: none"><li>• Anti-social behaviour</li><li>• Climate change/disease/drought/pests and invasives</li></ul>

# How do we get there?

## Vision & Objectives

Vision for Turnham Green:

“The Friends of Turnham Green, the London Borough of Hounslow and Greenspace will work together to create and maintain an exemplary centre for community involvement and enjoyment which is wildlife friendly, sustainable, resilient to climate change, and safe and accessible to all.”

### Key objectives for Turnham Green are:

- To continue to work closely with the Friends group and users of the facilities so to adequately maintain and improve the facilities.
- To ensure that Turnham Green is a place that is secure, safe to use and is clean and well maintained.
- To ensure that the management of the landscape maintains the heritage character of the park.
- To continue to encourage and promote community involvement in the management of the park.
- To ensure that the park is promoted and managed to provide a high-quality service for the people using it.
- To ensure that the management of the park protects and enhances the biodiversity of the site and borough.
- Creating opportunities for connecting green spaces for wildlife and increasing the boroughs ecological resilience and connectivity

## Meeting the Green Flag Award Criteria

## Management of Turnham Green

This sets out guidelines and general principles to be followed in delivering the vision and objectives outlined above.

Management of the open space needs to deliver high standards of maintenance of the soft and hard landscaping of Turnham Green within existing revenue budgets and through capital infrastructure funding opportunities.

## Delivery Partners

The Council works pro-actively with the Friends of Turnham Green in consulting with local people regarding their views of the facilities and any impact that is made on their lives. Continuing this relationship is a very high priority for the management of the open space.

GS are responsible for maintaining all the parks and open spaces within the LBH Parks Service. Maintenance is carried out by the contractors' operatives who have the necessary skills to achieve high and consistent horticultural standards. We also work with environmental volunteering groups, such as the Environmental Champions and others, see the "Community Involvement" section below for more information.

## A Welcoming Place

The following management regimes all play a part in ensuring that Turnham Green continues to be a welcoming area.

### Graffiti Removal

As a part of our aim to make the borough safe, green, and clean we are committed to reducing and removing graffiti. The site will be regularly inspected for graffiti. All graffiti will be removed within 7 days of notification, where the graffiti is racist or offensive it will be removed within 24 hours of notification.

### Signage

Park signage will be kept clean and is regularly inspected, any repairs will be carried out promptly. For more information, please refer to the “Marketing Section” below.

### Pathways

All paths and hard surfaces will be inspected annually. Any necessary repairs will be reviewed, and funding opportunities explored with the aim of rectification as soon possible.

### Visibility

Vegetation will be reduced so that where possible site lines are achieved across the site.

## Healthy, Safe & Secure

The following management regimes all play a part in ensuring that Turnham Green continues to be a healthy, safe, and secure place.

### Health & Wellbeing

We recognise the benefits that our green spaces can make to the health of our residents.

We are committed to developing active environments that enhance leisure, sport, physical activity and play opportunities in priority areas.

The Councils [Playing Pitch Strategy](#) in particular, identifies needs for sports facility improvements and sets out priority projects for delivery in partnership with key stakeholders. We work with Council services to ensure that our approach supports the broader Council strategies around health and wellbeing and together with Active Travel team, Leisure Services, Transport, Public Health, Community Development team and the local community we aim to deliver these improvements.

## Healthy Hounslow

Healthy Hounslow is a partnership between several organisations supporting people in leading healthier lifestyles; to become more active, eat well and stop smoking. The partners that make up Healthy Hounslow are Hounslow Council, West London Trust, Feltham & Bedfont Primary Care Network, MoreLife, Maximus/BeeZee and Lampton Leisure. The services and support offered by Healthy Hounslow are: Smoking cessation, Health and wellbeing coaching, Healthy weight management, Exercise on referral, Cook and eat sessions, and Community NHS Health Checks.

You can find out all about Healthy Hounslow at our website [www.healthyhounslow.co.uk](http://www.healthyhounslow.co.uk)

## Move More Hounslow Activity Map

- Available online to be [here](#).
- Map shows most parks in the borough that have a multitude of free activities available

**Activities**

- Group exercise
- Historic House
- Museum
- Outdoor gym
- Health walk
- Cricket wicket
- Play area
- Golf
- Tennis court
- Skate ramp
- Parkour
- parkrun
- Games area
- Beating/Bowling
- Cycling
- Green Gym
- Orienteering

**MOVE MORE HOUNSLOW**  
Getting outdoors can help boost your mood and reduce anxiety

**COUCH TO 5K**  
A weekly running programme designed by the NHS for complete beginners.

**ACTIVE 10**  
Track and gradually increase your levels of brisk walking over time.

**CHECK OUT OUR TOP TIPS!**

- Choose activities you enjoy
- Set simple goals and make a plan
- Start slowly and pace yourself
- Wear comfortable clothes
- Stay hydrated

**Set simple goals and make a plan**

**ACTIVITY PLANNER**

I will:	On:	At:	For:	With:
brisk walk to the park	Tuesday	10am		friends
I will:	On:	At:	For:	With:
I will:	On:	At:	For:	With:

Gradually build up to 150 minutes per week. You can count activity that lasts 10 minutes or more!

How many minutes have you been active this week

## Site Safety

All GS staff and contractors play an important role in terms of a visible staff presence. All are uniformed and where necessary will wear highly visible clothing. All works will have been risk assessed to ensure the highest level of public safety.

## Control of Dogs

Most dog owners act responsibly and keep their pets under control. However, the council continues to receive comments and complaints from residents about the behaviour of some dogs and irresponsible dog owners within parks and open spaces.

In response to this, the council is holding a public consultation process to gather residents' opinions about a variety of dog control related issues. The feedback will help us decide whether to introduce a dog control public space protection order (PSPO).

PSPOs are aimed at ensuring public spaces can be enjoyed free from anti-social behaviour. They are not about stopping the responsible use of public spaces - but they do provide councils with a tool to tackle persistent issues that are damaging their communities. For more information on the status and findings from the dog PSPO consultation please see the webpage [here](#).

Turnham Green welcomes responsible dog owners. The memorial garden and war memorial square are already dog exclusion zones, and this has been reflected in the PSPO consultation.

## Community Safety

Hounslow Community Safety Partnership (HCSP) is responsible for reducing crime, disorder, and substance misuse in the London Borough of Hounslow. Along with other supporting partners, HCSP brings together key local agencies including:

- London Borough of Hounslow – Safer Communities Team
- Metropolitan Police Service (Hounslow Division)
- Hounslow district of the National Probation Service
- Hounslow NHS Trust
- London Fire and Emergency Planning Authority
- [www.hounslow.gov.uk/community-safety](http://www.hounslow.gov.uk/community-safety)

The Council's Enforcement Team have responsibility for overseeing Community Safety in the boroughs' parks and open spaces. They walk through parks to show presence and work with the Parks Team and GS to target regular occurrences of ASB. Occasionally a joint task force operation including those above is required i.e., rough sleeping, food dumping, drinking and drug misuse.

In 2024, Hounslow Council established a Violence Against Women and Girls (VAWG) Steering Group focused on addressing VAWG issues in parks and open spaces. This group identifies short term and long term strategies and opportunities for partnership development. Key approaches include clearing sightlines, encouraging natural surveillance, and fostering a sense of ownership within these spaces through vegetation removal, raising tree canopies, encouraging volunteering in parks, and organising police walk and talks. The team have also been working closely with:

- London Borough of Hounslow – Domestic Violence Reduction Unit
- London Borough of Hounslow – Rough Sleepers Unit

Additionally, they contribute to the WA – BCU (West Area – Borough Command Unit) meetings, which include boroughs of Hounslow, Hillingdon, and Ealing.

## Well Maintained & Clean

The following regimes are designed to ensure that Turnham Green is clean and well maintained.

### Grass Maintenance

GS employ several different management approaches to maintain grass areas within our parks and open spaces. Generally, grass areas are managed either as amenity grassland, rough grassland, or as wildflower meadow. Within many of our larger parks, the grass is left uncut as part of the annual No Mow May campaign which was also referred to as [Hounslow's Natural Summer](#) in 2024. For more information see the Council's webpage [here](#).

Turnham Green is mainly managed as amenity grassland. There is also a wildflower meadow on the western side of the green, near to the rockery. This is one of the oldest and continuously managed wildflower areas, and it has become a well-recognised feature of the green.

### Amenity Grassland

Amenity grassland consists of areas used for general recreation, and formal and informal sports, and can include wide-open spaces or those areas planted with trees and shrubs. These areas are regularly cut during the growing season, to ensure they can continue to be used for recreation throughout the year (see Annual Maintenance Work Schedule). Grass edges, whether they are against paths, fences or walls will be cut at the same time as the rest of the grass using strimmers in most areas.

### Wildflower Meadows

Wildflower meadows are areas which are actively managed and promoted as wildlife areas. They are suitably prepared, sown and protected by GS, to ensure they establish and flourish to help promote pollinators, and to increase the biodiversity within the open space. They are clearly marked out, with interpretation boards to help inform the public about the benefits of wildflower meadows and how they are managed. Our meadows provide a rich floral display during spring and summer with plants including Ox-eye daisy, Common Birds-foot-trefoil, Black Knapweed, Field Scabious, and Yellow Rattle, though there is a change in the mix of species in flower through the months. These flowers are an important source for nectar feeding species.

As part of the council's commitment to invest in green infrastructure, GS help identify additional areas within our parks and open spaces, which can be managed as wildflower meadow, where suitable and in consultation with Friends groups and other stakeholders. For more information about wildflower meadows and how we manage them, please see the Council webpage [here](#).

## Trees

Trees are an incredibly significant feature in the borough's parks and open spaces. They provide a variety of benefits not only to visitors but to the overall environment of an area, creating habitats and providing natural shade. They form an important part of the borough's green infrastructure, and this is reflected within the council's [Green Infrastructure Strategy](#).

### Tree Maintenance

Trees within parks and open spaces are subject to inspection by suitably qualified and experienced GS Arboriculturists. This is to identify and remedy any unacceptable risks to people using the sites, or the removal of trees that are extensively decayed compromising their structural integrity. Tree pruning is only carried out where necessary for risk management purposes or where formative pruning is necessary; this approach allows Hounslow's parks to retain a natural landscape with well-formed specimens.

Hounslow Council works closely with Friends, Councillors and Lampton Services Greenspace tree team to consider the tree population within Turnham Green to make improvements and ensure that there is continuity in the way that the trees are managed.

### Tree Planting

Between 2020 and 2024 the Council set ambitious tree planting targets, successfully planting over 25,000 new trees and whips in parks and open spaces. This formed one of the main ongoing targets set out in the [Green Infrastructure Strategy](#).

Since 2020 there were 431 whips and trees planted at Turnham Green forming a key part of the plan.

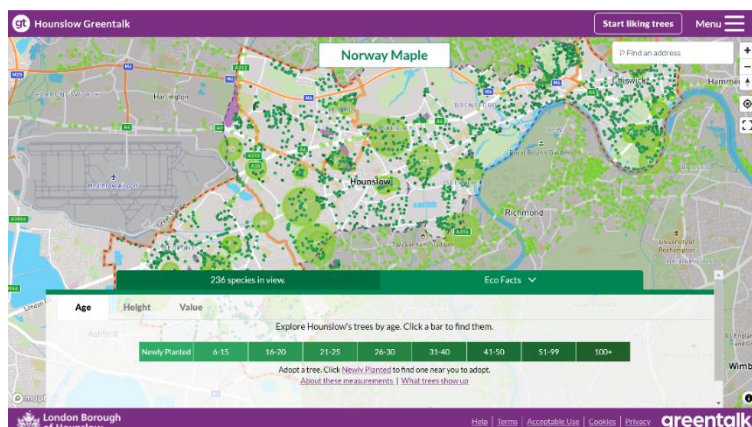

For more information on tree planting locations and species, please see the Council webpages [here](#).

## Greentalk

Hounslow Greentalk is an innovative new platform developed as a bespoke resource for Hounslow residents. It has lots of clever features to help explore public trees and make a positive difference to the environment. The platform provides a unique opportunity for Hounslow residents to adopt newly planted trees and help their borough become greener. Anyone who wants to find out about trees in the borough can use the Greentalk interactive map to explore their area through a tree focused perspective. Other features include but not limited to:

- Adopting a tree
- Watering notifications
- Green walks
- Tree giveaways

Over 120,000 trees have been mapped, and around 33,000 can be liked by registered users. Liked trees are saved as favourites and can be accessed through the user profile. The data used to display all the information on Hounslow Greentalk is derived from the council's tree partners who manage the trees in the borough and regularly provide up-to-date information to keep the system as relevant as possible. If a resident is aware of a problem with a tree, Hounslow Greentalk can help them report the exact tree with the right information to the relevant tree partner.

For more information, please visit [Hounslow Greentalk](#)

## Cleansing

The collection of litter is extremely important in maintaining the appearance of Hounslow's parks and open spaces and has a direct effect upon how people treat and respect the site. Litter is collected and bins emptied daily by the GS cleansing crews. Any occurrences of fly tipping are cleared by GS within 48 hours of notification, and we work closely with the Enforcement Team to investigate fly tipping issues where possible.

## Furniture & Fittings

GS ensure that all furniture is clean and will check benches, notice boards and bins on a regular basis. Items will be cleaned when necessary. Any repairs will be reviewed, and funding opportunities explored with the aim of rectification as soon possible.

## Hard Surfaces

Hard surfaces will be kept clean with litter and leaves removed. Hard surfaces will be maintained in a weed free state. Paths will be kept in a good state of repair and all paths being inspected annually. Any necessary repairs will be reviewed, and funding opportunities explored with the aim of rectification as soon possible. Drains and gully's are inspected regularly as part of the Annual Infrastructure Survey.

## Buildings & Structures

The Christ Church is situated within the green and the building and immediate grounds are managed separately by the diocese. Turnham Green War Memorial is also situated within the green, next to the eastern entrance. This is a large memorial situated within an enclosed square with seating and perennial bedding immediately around the memorial. The war memorial is in good condition and GS are responsible for managing and maintaining the enclosed courtyard area.

## Environmental Sustainability

The following regimes are designed to ensure that Turnham Green is managed in a sustainable way.

### Litter Recycling

All litter is taken to Transport Avenue, the West London Waste Authority site within Hounslow borough. It is then loaded onto trains and taken to an energy waste site in Avonmouth, where it is used as a renewable energy source.

### Green Waste Recycling

All green waste is either reused or recycled. Grass clippings are spread and left in situ in the park. Wood chippings are used on flowerbeds to provide a compost and a weed control. Other green waste (shrub pruning etc.) is taken to Transport Avenue Waste Disposal Site, where it is then transferred by road to a composting facility for processing.

### **Pesticides**

As a part of our commitment to ensuring a cleaner and greener Hounslow, the use of chemicals to treat weeds was stopped in 2020. This decision supports the Council's ambitions for a cleaner and greener borough and promotes biodiversity and encourages wildlife. This approach is now fully supported by GS in parks and open spaces, enabling the borough to become even more hospitable to plants and animals.

The use of specific herbicides will only be considered when it is not viable to use non-chemical alternatives, for example, controlling the spread of an invasive species such as Japanese Knotweed, as they are especially damaging to the environment.

Removing the use of herbicides does present operational challenges, herbicides have always been considered a cost-effective solution due to their less labour-intensive results. As such GS continue to assess and review their operational schedules to ensure that an adequate resource and suitable approach is applied to control weed growth.

### **Peat Use**

GS do not use peat, or any peat-based products within Hounslow's parks and open spaces.

### **Infrastructure**

GS follow the Council's procurement guidelines when sourcing replacement or new infrastructure items. This includes prioritising products made from recycled and environmentally and sustainably sourced materials wherever possible and financially feasible. For example, using trees felled onsite for seating and fence work, and sourcing fibreglass heritage litter bins to replace ironwork bins. Products made from tropical hardwoods and other unsustainable sources are not used.

## Fuel, Fleet & Power Tools

### Fleet

As part of an ongoing trial within the Lampton group, the GS fleet use an alternative diesel product, Hydrotreated Vegetable Oil Fuel (HVO). HVO meets OEM fuel specifications and is certified to be a 90% CO2 saving on normal diesel. This efficiency is better than current electric vehicles and is a great stop gap to future technologies given the age of the HGV fleet. It is hoped that a switch to HVO will help GS transition to low carbon technologies in a systematic way, giving time to manage various operational constraints limiting early adoption of electric vehicles.

### Power Tools

GS are continuously trialing the use of electric power tools as alternative to 2 stroke machinery. They currently utilise several battery powered trimmers and blowers and continue to evaluate the effectiveness and development of the technology, and replacing older traditional machinery as it reaches end of life.

## Biodiversity & Heritage

We manage our parks and open spaces by ensuring that where possible we maintain a diverse range of age, species and structure in the canopy, understory and herb layers and aquatic spaces. This is achieved by:

- Managing site specific habitats such as acid grassland, mature veteran trees, rivers, ponds, and woodlands.
- Supporting the borough's wildlife through interventions such as birds and bat houses, stag beetle loggeries, aquatic ledges and educational signage.
- Enhancing existing aquatic and terrestrial habitats to support a diverse range of flora or fauna.
- Exploring opportunities to create new habitats such as wildflower meadows, native hedge planting, aquatic ledges, and copses.
- Consider introducing sympathetic mowing regimes where suitable, for example leaving areas of rough grassland around trees.
- Recognising the effects of climate change e.g., drought, wildfires, floods, disease, biosecurity.
- Prioritising sustainability through resilient planting e.g., drought tolerant trees and plants.
- In 2021 LBH commissioned a baseline report of Invasive species Parks and open spaces portfolio, surveying 195 sites. This information was used to procure a specialist contractor to remove targeted species over a five year period beginning in April 2025 and running for 5 years. This will seek to eradicate: Japanese Knotweed, Giant Hogweed, and floating Pennywort, and provide advice on how to deal with Himalayan balsam.
- Biosecurity – Anyone responsible for plant supplies must ensure that all plants and associated soil are supplied free of pest and disease at all points in the supply chain. To achieve this, GS consider the latency period and life cycles of all pests and diseases. Special attention to biosecurity is given to imported stock.
- GS procurement will always prioritise suppliers that are able to demonstrate a supply chain audit trail (for example, are part of a recognised Plant Health Assurance scheme) that ensures plant material sourced within the UK is under a regime of biosecurity-aware production and follow nationally agreed good practice guidelines.

The Nature Recovery Action Plan (NRAP) is a part of Hounslow's Greener Borough Framework and was adopted in 2023. A stakeholder board -Nature Recovery Stakeholder Board (NRSB) was launched in February 2024 and is led by the Nature Recovery Manager with quarterly meetings held in various locations across the borough. Currently planning the 4th meeting to be held in February 2025. More information can be found [here](#).

## Ecological Survey 2023

Turnham Green is a triangular open space bisected by a pathway, with Christ Church in the eastern section of the park. On the northern section of the site are flower beds with a war memorial to the east. Small areas of amenity grassland are present and appear to be regularly mown and comprised of meadow grass, perennial ryegrass, daisy, dandelion, and speedwell along with footpaths and several mature trees. Friends of Turnham Green help to improve the beauty and biodiversity of the site with a plan comprising of four phases which include revitalising the existing wildflower meadow, planting of bulbs to provide spring colour, expand the meadow, and planting of shrubs.

Christ church on the right and mature trees on the left at Turnham Green

Two bird boxes were recorded on the site. A bird nest was seen on one of the mature trees and looks to have been abandoned. Birds-pigeons were seen at the site during the walkover.

### Considerations

- Planting of native wildflower and grass seed mix that will provide the potential habitat for insects and food for birds.
- Hedgerow creation for a foraging habitat for commuting birds.
- Habitat piles for amphibians, reptiles and invertebrates could be created across the park boundary.
- The value of the site for breeding birds and bats could be enhanced by installation of range of artificial bird and bat boxes onto the trees and buildings on the site.

## Community Involvement

This is crucial to the management of Turnham Green and will continue to be of the utmost importance.

### Friends Groups

The Council works closely with Friends of Turnham Green and encourages them in their efforts to apply for grants and to organise volunteer days and events. We also engage with other community groups and third parties to encourage and ensure opportunities for the needs and requirements of a diverse borough population.

The Parks Team provide support for applications to the Council's Thriving Communities Fund. More information about the scheme can be found on the Council webpages [here](#).

Hounslow Friends of Parks Forum holds quarterly meetings. The forums are facilitated by [Habitats & Heritage](#) who are a west London based organisation who help support new and established Friends Groups. The Friends of Parks provides a support network, and to provide opportunities to build relationships that are based on collaboration.

### Friends of Turnham Green

Formed in 2007, this friend's group are proactive in maintaining Turnham Green, a community comprising of around 100 of residents of Chiswick as well as other interested parties. Friends of Turnham Green and their team of volunteers help maintain assets in the park such as the lovely rockery and wildflower meadow. They are actively recruiting more locals to join the team and hold sessions usually once a month.

### Volunteering

The Council and GS work with the public to inform, educate, and volunteer in managing habitats through event opportunities and specific projects such as school planting in greenspaces, green gyms, tree planting and habitat surveying. Community involvement and engagement in nature conservation projects helps to increase the health and wellbeing of our residents.

The GS Countryside Team help manage and coordinate several volunteer groups across the borough. More information can be found on the Parks Hub webpages [here](#). The Council also has an Environmental Champions Scheme, more information available on the website [here](#).

## Marketing

Promotion and marketing of Turnham Green is carried out by means of a range of measures to ensure that local people and visitors to the borough are aware of the facility.

### Entrance Signage

Noticeboards on site are used to promote work in the park and activities and events held by Friends of Turnham Green.

### Signage Refresh

In 2021, the Parks Team secured significant funding for a borough-wide refresh of all parks and open spaces signage.

The signage was designed in partnership with Friends, local community groups and other stakeholders to ensure they are designed in consultation with our park's users. The design principles focused on inclusivity, using pictograms and maps to illustrate the facilities available in the park and the surrounding area. This programme was completed in Autumn 2024.

For more information and examples of the new signage please visit the Council webpages [here](#).

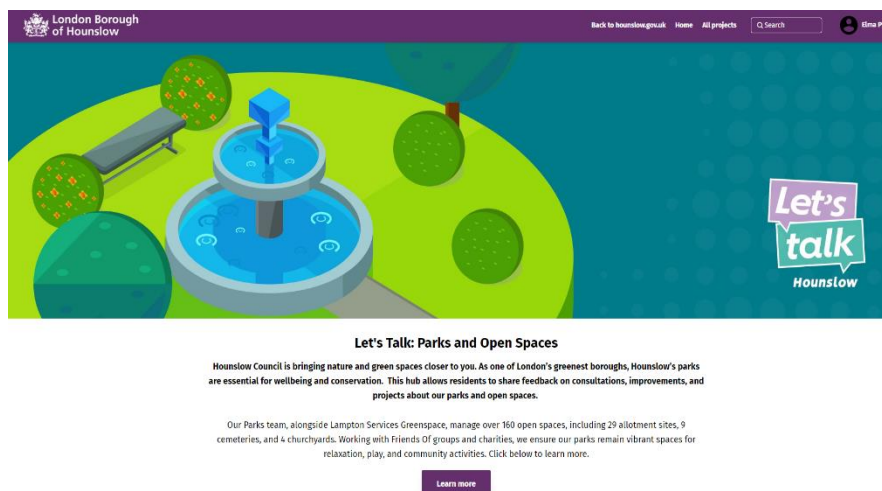

### Web & Press

The Council's website has a dedicated Parks and Open Spaces section which can be found [here](#). You can find general information about the service, with useful links, advice, and reporting channels for customers to use.

### Parks Hub

The Consultation and Engagement platform Let's Talk Hounslow has a new dedicated Parks Hub which includes current consultations, surveys, and live projects, as well as a digital noticeboard. Since the launch in February 2024, the site has had over 10,000 visitors to the homepage. To view the hub visit [here](#).

Hounslow also has several other websites which are designed to engage with the wider community about our services and the opportunities available in Hounslow. Please visit, [HounslowConnect](#) and [InHounslow](#) for more information.

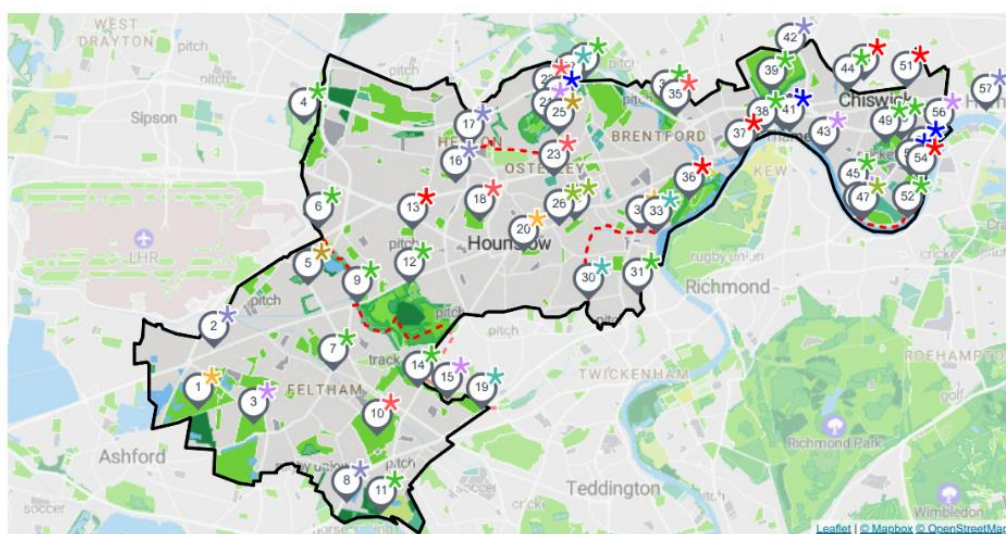

- Promotion through the London National Park City [www.nationalparkcity.london](http://www.nationalparkcity.london)
- London National Park City Mini-Guide for Hounslow, celebrating Hounslow's great outdoors [Hounslow's Mini Guide](#)

The Council also has an active social media presence on [Facebook](#) and [X](#) with the handle @LBofHounslow.

## LONDON NATIONAL PARK CITY Hounslow Mini-Guide\*

**LONDON  
NATIONAL  
PARK CITY  
IS OPEN\***

Welcome to the first London National Park City Mini-Guide for Hounslow, celebrating Hounslow's great outdoors. Use it to find places to explore, play, or simply sit; groups to join and paths to walk; activities on land or water to try. Get there on foot, by bicycle or public transport.

To create community awareness for all its facilities the Council regularly produces articles and press releases about activities and facility development. The Council publishes a regular newsletter, Hounslow Matters, which is provided to all residents and includes news and information about our services, including parks and open spaces. To download the latest publication please follow the link [here](#).

- To find out more about the friends at Turnham Green visit: [Friends of Turnham Green, community based voluntary organisation](#)

## Events

The Council encourages the hire of parks to appropriate organisations for commercial and community events. Events are held in accordance with the Parks and Open Spaces Events Policy found on the council webpages [here](#).

### Upcoming in 2025:

The Events team are currently planning this year's events.

#### 2024

- Charity bike ride break station

#### Previous events include:

- **MOBA Ballet** -Outdoor production of a youth ballet performance. Seats were arranged and tickets sold online, although passersby could also sit in the park and watch on the day.
- **Super Saturday of Sport**- Annual mixed sports event with various competitions and activities for children and adults to take part in, separately or together as a family. The event also has a variety of food and drink stalls from local businesses.

#### Regular events include:

- **Funfair**- usually twice a year.
- **Sports**- Various children's sports groups using site.

# How do we know we have arrived?

## Monitoring & Review

This management plan has been designed as a live document that will guide development in the park over the next five years. Progress will be subject to monitoring and review to measure success and delivery of aims.

Members of the Greenspace Parks team regularly visit the site to monitor progress against the action plan; the results of these visits are then discussed at monthly management and meetings with LBH officers and the Friends group.

LBH Parks Officers work closely with GS and the Friends group to monitor progress and discuss future. This includes:

- Performance against the requirements of the Management Plan
- Provision and analysis of infrastructure surveys
- Provision and analysis of asset surveys
- KPI's and performance monitoring

An annual SWOT analysis will be carried out by all stakeholders and, together with the information gathered from all the monitoring methods will be recorded and fed into annually updated management plans.

GFA Judges feedback and award outcome will enable continuous learning, development and improvement by all partners involved in the award process. Discussed at monthly Parks and GS management meetings and meetings with Stakeholders.

## Action Planning

Our action plan for Turnham Green is provided in Appendix 1. This plan is based on an evaluation of the SWOT analysis together with other projects and plans raised by the Friends group. The action plan lists actions and categorises based on timescales and the Green Flag award criteria. The plan will also allocate ownership for each task to the key stakeholders.

# Appendix 1

## Turnham Green | Green Flag Award | Action Plan Updated 2025

### Key to Action Plan

#### Green Flag Award Criteria

W	Welcoming Place
H	Healthy, Safe and Secure
VM	Well Maintained and Clean
S	Sustainability
BH	Biodiversity and Heritage
C	Community
Mkt	Marketing
Mgt	Management

#### Stakeholders

LBH	Parks Service Management Team
GS	Lampton Greenspace
FoTG	Friends of Turnham Green

#### Delivery Timescales

S	Short term (less than 1 year)
M	Medium term (1 to 3 years)
L	Long term (3+ years)
O	Ongoing

MANAGEMENT ACTION	STAKE-HOLDER	GREEN FLAG CRITERIA	TIME-SCALE	STATUS 2025
Review of all infrastructure	GS	W, H, WM	M	Investigate ways to fund the repair of railings which are in poor condition.
Signage replacement program	LBH	W, S	O	Signage has now been upgraded
Anti-Social behaviour-Continue stakeholder engagement and targeted enforcement	LBH, GS, FoTG	W, H	O	When required
The rockery requires trimming of overgrown plants and removal of coarse weeds and some addition of plants in spring or autumn to replace damaged or over-mature plants. The pebble top dressing requires topping up from time to time to protect the soil surface and help to retain soil moisture.	FoTG, GS		O	Continue to do this via Friends group with volunteer workdays. Several successful workdays delivered in 2023 and 2024.
Maintain wildflower meadows and naturalized wildflower edges to the west green	FoTG, GS	O	O	Continue to work with volunteers and FOTG, who have developed a plan for supporting the meadow with a local practice.
Maintain a healthy tree stock	LBH, GS	W, H, WM, SBH	O	Trees planting in 2022 continue to be supported, along with the replacement of some failed stock in winter 2023. One additional tree added to green in winter 2024, alongside replacements.

MANAGEMENT ACTION	STAKE-HOLDER	GREEN FLAG CRITERIA	TIME-SCALE	STATUS 2025
Explore opportunities to increase amenity value, biodiversity and reduce maintenance.	LBH, GS, FoTG	BH	S	Work on the meadow with FOTG has been a major improvement to the biodiversity on site.
Water Point /drinking Water Fountain	LBH, GS, FoTG	BH	O	Drinking water fountain installed Spring 2023.
Increase bird boxes and bat boxes	LBH, GS, FoTG	BH	O	Boroughwide plan completed 2024.
Continue to consult and engage with the local community	GS, FoTG	C	O	We continue to work closely with FOTG.
Continue to work with the Friends of Turnham Green. Continue to provide support to other Community Volunteers/Services to promote greening activities.	LBH	C	O	Continue to work in partnership with Abundance London and Good Gym
LBH to continue to facilitate events within Hounslow's parks and open spaces as part of an active community engagement agenda.	LBH	C	O	Ongoing.
LBH to facilitate opportunities for education, culture, and heritage at the site.	LBH, GS, FoTG	C	S, M	Heritage interpretation project being explored to support cultural opportunities on site.
Support Fitness activities in the park	LBH, GS		O	Fitness activities are taking place on site as part of events calendar, with consideration for condition of grass / planting.
Continue to publicise the park through LBH website, social media platforms and notice board. Also, borough wide campaigns, including achievements, initiatives, and announcements.	LBH, FoTG	Mkt	O	Ongoing
Support other positive promotion of the park through various media platforms.	LBH, GS, FoTG	Mkt	O	Ongoing
The management plan to be reviewed annually and the action plan to be updated annually.	LBH, GS, FoTG	Mgt	O	Ongoing

# Appendix 2

## Annual Maintenance Work Schedules

The following table provides an overview of the annual maintenance work schedules. All frequencies are subject to seasonal variations, resource, and specific horticultural requirements. They are reviewed annually by the Operations Manager at GS to ensure they remain suitable and reflect any significant site changes. See “*Meeting the Green Flag Criteria*” section for more detailed management information.

<b>Service</b>	<b>Frequency/Management information</b>
<b>GM Summer works (March - October)</b> <i>Amenity grassland cutting</i> <i>Rough grassland cutting</i> <i>Wildflower meadow cutting</i> <i>Hedge &amp; shrub cutting</i>	<b>Managed by the Grounds Maintenance Teams</b> Once every 3 weeks 1-2 cuts per summer season 1-2 cuts per summer season 1 “reduce cut” dependent on horticultural requirements
<b>GM Winter works (October – March)</b> <i>Hedge &amp; shrub cutting</i> <i>Pond clearance</i> <i>Leaf clearance</i>	<b>Managed by the Grounds Maintenance Teams</b> 1 “hard cut” dependent on horticultural requirements As required, dependent upon size and conditions As required, from hard surfaces and grass areas
<b>Cleansing</b> <i>Litter collection &amp; bin emptying</i> <i>Non-offensive graffiti removal</i> <i>Offensive graffiti removal</i> <i>Fly tip removal</i>	<b>Managed by the Cleansing Teams</b> <b>[site specific]</b> Daily, including bank holidays. Within 7 days of notification Within 24 hours of notification Within 48 hours of notification
<b>Infrastructure</b> <i>Cleansing (bins, benches, signs etc).</i> <i>Lighting</i> <i>Buildings</i>	<b>Various teams/management</b> As required, based on visual inspections and reports Inspections and repairs managed by Hounslow Highways All H&S checks conducted, electrical, fire, water, etc.
<b>Trees</b> <i>Tree inspections</i> <i>Tree maintenance</i> <i>Tree watering</i> <i>Tree planting</i>	<b>Managed by the Tree Team</b> Annually Based on previous inspections, prioritised by H&S Summer: May – September (for trees under 3 years) Winter: October – March

## Monitoring the Annual Maintenance Work Schedules

Members of the Parks Team conduct site visits to ensure that the work schedules are being adhered to and report issues to GS to resolve where necessary. Customer enquiries relating to maintenance issues are also routinely assessed to ensure they are rectified in a suitable and timely manner.

The Parks Team are currently working with the Ward Improvement Team to develop a new monitoring program, which we expect to be deployed in spring 2025.

The program will rely upon the Land Audit Management System (LAMS), developed by the Association of Public Service Excellence (APSE). This is an industry recognised approach, which many local authorities use to monitor the performance of their park services.

The program will also make use of and refer closely to the guidance provided by Parks for London in their recently updated Green Space Quality Manual. This provides valuable insight and understanding as to “what good looks like” and will help to ensure a consistent approach is taken during routine monitoring.

The new monitoring program will be periodically reviewed to help measure its success in improving the parks services. We expect it to help identify where there are issues and trends in performance to inform how best to deploy resource in the areas which require it the most.

For more information regarding the tools and approach that will be used for the monitoring program, please visit the [APSE LAMS](#) page and download the Parks for London [Green Space Quality Manual](#).

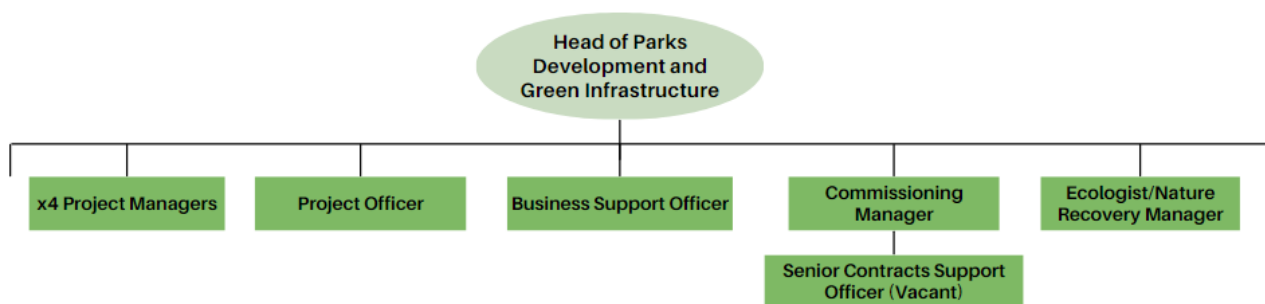

# Appendix 3

## Management Structure & Responsibilities

Turnham Green is owned and managed by the LBH and maintained by GS. Information below sets out the management structure and describes the roles and responsibilities of the key personnel involved in managing and maintaining the site.

## LBH Parks Service Management Structure

The Environment and Culture Directorate provide the following roles who are responsible for the management, and associated roles, of Hounslow's parks and open spaces:

### LBH Head of Parks Development & Green Infrastructure

Senior commissioning role for the management and partnership with GS, senior advisor in relation to parks and open spaces, strategy and policy development, Member's liaison.

### LBH Parks Project Managers (x4)

Project development and management, fundraising, community engagement and consultation, implementation, strategy, and policy setting.

### Parks Project Officer

Development and delivery of projects, fundraising, community engagement and support Head of Parks.

### Commissioning Manager

Supplier performance governance and relationship management, Legal and contracts, Planning/Commissioning, Operational Service delivery and business processes/systems.

### Senior Contracts Support Officer

Supplier performance, customer service and casework, community engagement and consultation, project support.

### Parks Business Support Officer

Assistance with finance; administration, project support and communications.

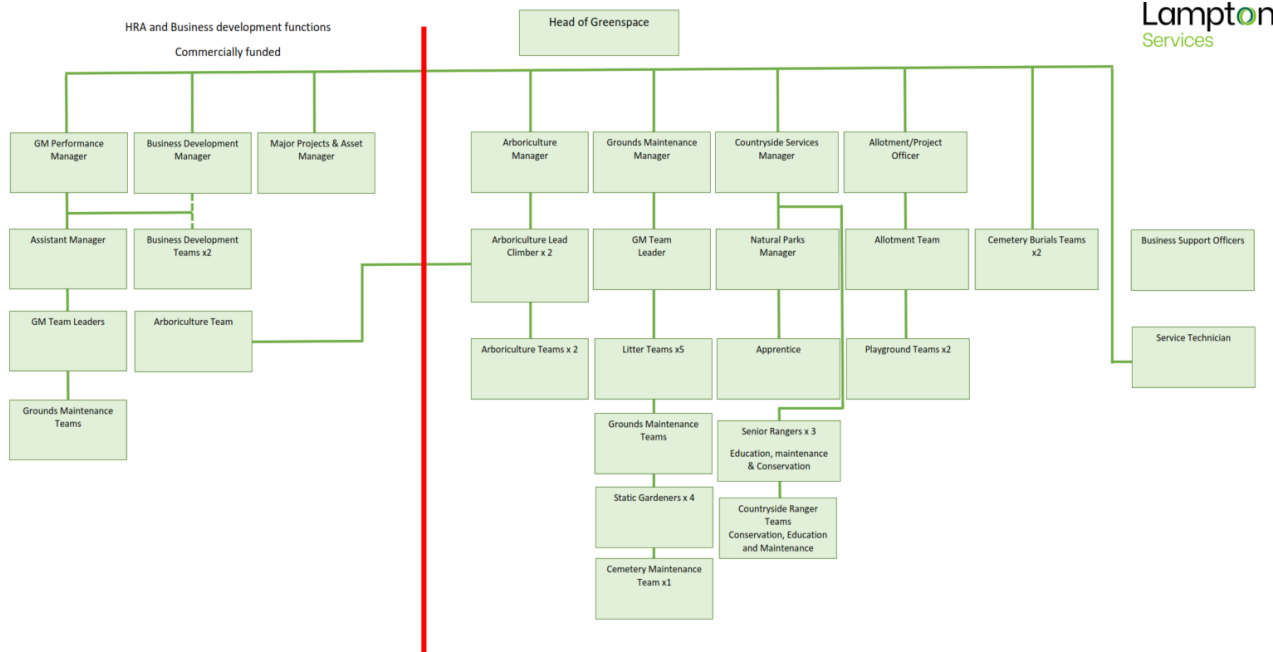

### Ecologist & Nature Recovery Manager

Responsible for providing expert ecological advice relating to the management, protection and enhancement of important habitats and species within the borough.

## Lampton Services Greenspace Management Structure

The following GS roles are responsible for the management of Hounslow's parks and open spaces:

### Head of Service

Responsible for the ground's maintenance service provision. Oversees the delivery of the specification which includes infrastructure.

### Projects Manager including the Allotment Service

Responsible for the development of park infrastructure, management of the allotment service, overseeing horticultural standards, schemes, and developments. Main contact for contractors (CDM). Friends and Member liaison.

### Countryside Manager

Responsible for the management of the borough's countryside service. This role includes the management of the Ranger team and educational, animal husbandry, environmental and wildlife operations/programs associated with these locations.

### Planned Maintenance Manager

Responsible for the management of the operational resources to deliver the ground maintenance services for the parks and open spaces sites.

### Performance & Support Officer

Customer Service functions- Freedom of Information (FOI), customer enquiries, councillors' enquiries, and monthly statistics; technical project support.

### Tree Team Manager

Responsible for the teams that carry out the inspections and maintenance of the boroughs 85,000 park trees. Oversees all tree planting schemes for the council and community groups in parks. Managing and mapping/recording of invasive species. Planning application guidance to LBH.

### Playground Inspectors x2

Visual, operational, and minor repairs of playgrounds. Inspected annually external contractor.

### Operational Teams

Grounds maintenance is delivered using mobile teams. These teams provide the Grass cutting, horticultural tasks, general maintenance, litter bin emptying and litter picking.

### Business Support Officer

Provides administration for fleet, handles finances and overtime schedules.
