Dear Sir/Madam

Proposed conversion of zebra crossing to traffic signal controlled crossing - Heston Road (between Church Road and Hogarth Gardens)

I am writing to inform you of our proposals to replace the existing zebra crossing with a traffic signal controlled crossing on Heston Road, adjacent the Heston Community School and Heston Primary School, as shown on the attached plan.

The scheme's aim is to enhance pedestrian safety and improve traffic flows for drivers using this road, particularly during the school start and finish times when peak pedestrian movement is experienced. Reducing traffic congestion is in line with the Council's objective to provide a cleaner and greener borough that encourages active, healthy communities.

Your comments on this proposal are welcomed, and it would be appreciated if these could be sent to the Council in writing (including email) using the contact details shown above. Comments should be received no later than 27 January 2017.

Please note, this document is also available online and can be viewed at http://www.hounslow.gov.uk/index/council_and_democracy/consultations.htm

Yours sincerely

Malcolm Keen

Senior Traffic Engineer
