## EXPLANATORY NOTE

(This Note is not part of the Order, but is intended to indicate its general purport.)

This Order further amends the Hounslow (Waiting and Loading Restriction) Order 2008 by removing waiting and loading restrictions, where they have been replaced by Red Route restrictions in Cranford Lane, Hounslow, Oak Avenue, Springwell Road and Speart Lane.

---

<sup>1</sup> 1984 c.27

<sup>2</sup> 2008/24

## **Statement of Reasons**

### **Oak Avenue, Hounslow – Access Restriction and Cranford Lane, Oak Avenue, Speart Lane, Springwell Road, Hounslow – Red Route Controls**

The council is consulting on proposals to introduce a restriction on motor vehicles accessing Oak Avenue, Hounslow during school start and finish times (Monday – Friday 8.15-9.15am and 2.45-3.45pm) as part of its School Streets programme.

Exemptions will be introduced for those who live within the zone and their visitors, blue badge holders, easily recognisable delivery vehicles (e.g. supermarket lorries), or school staff.

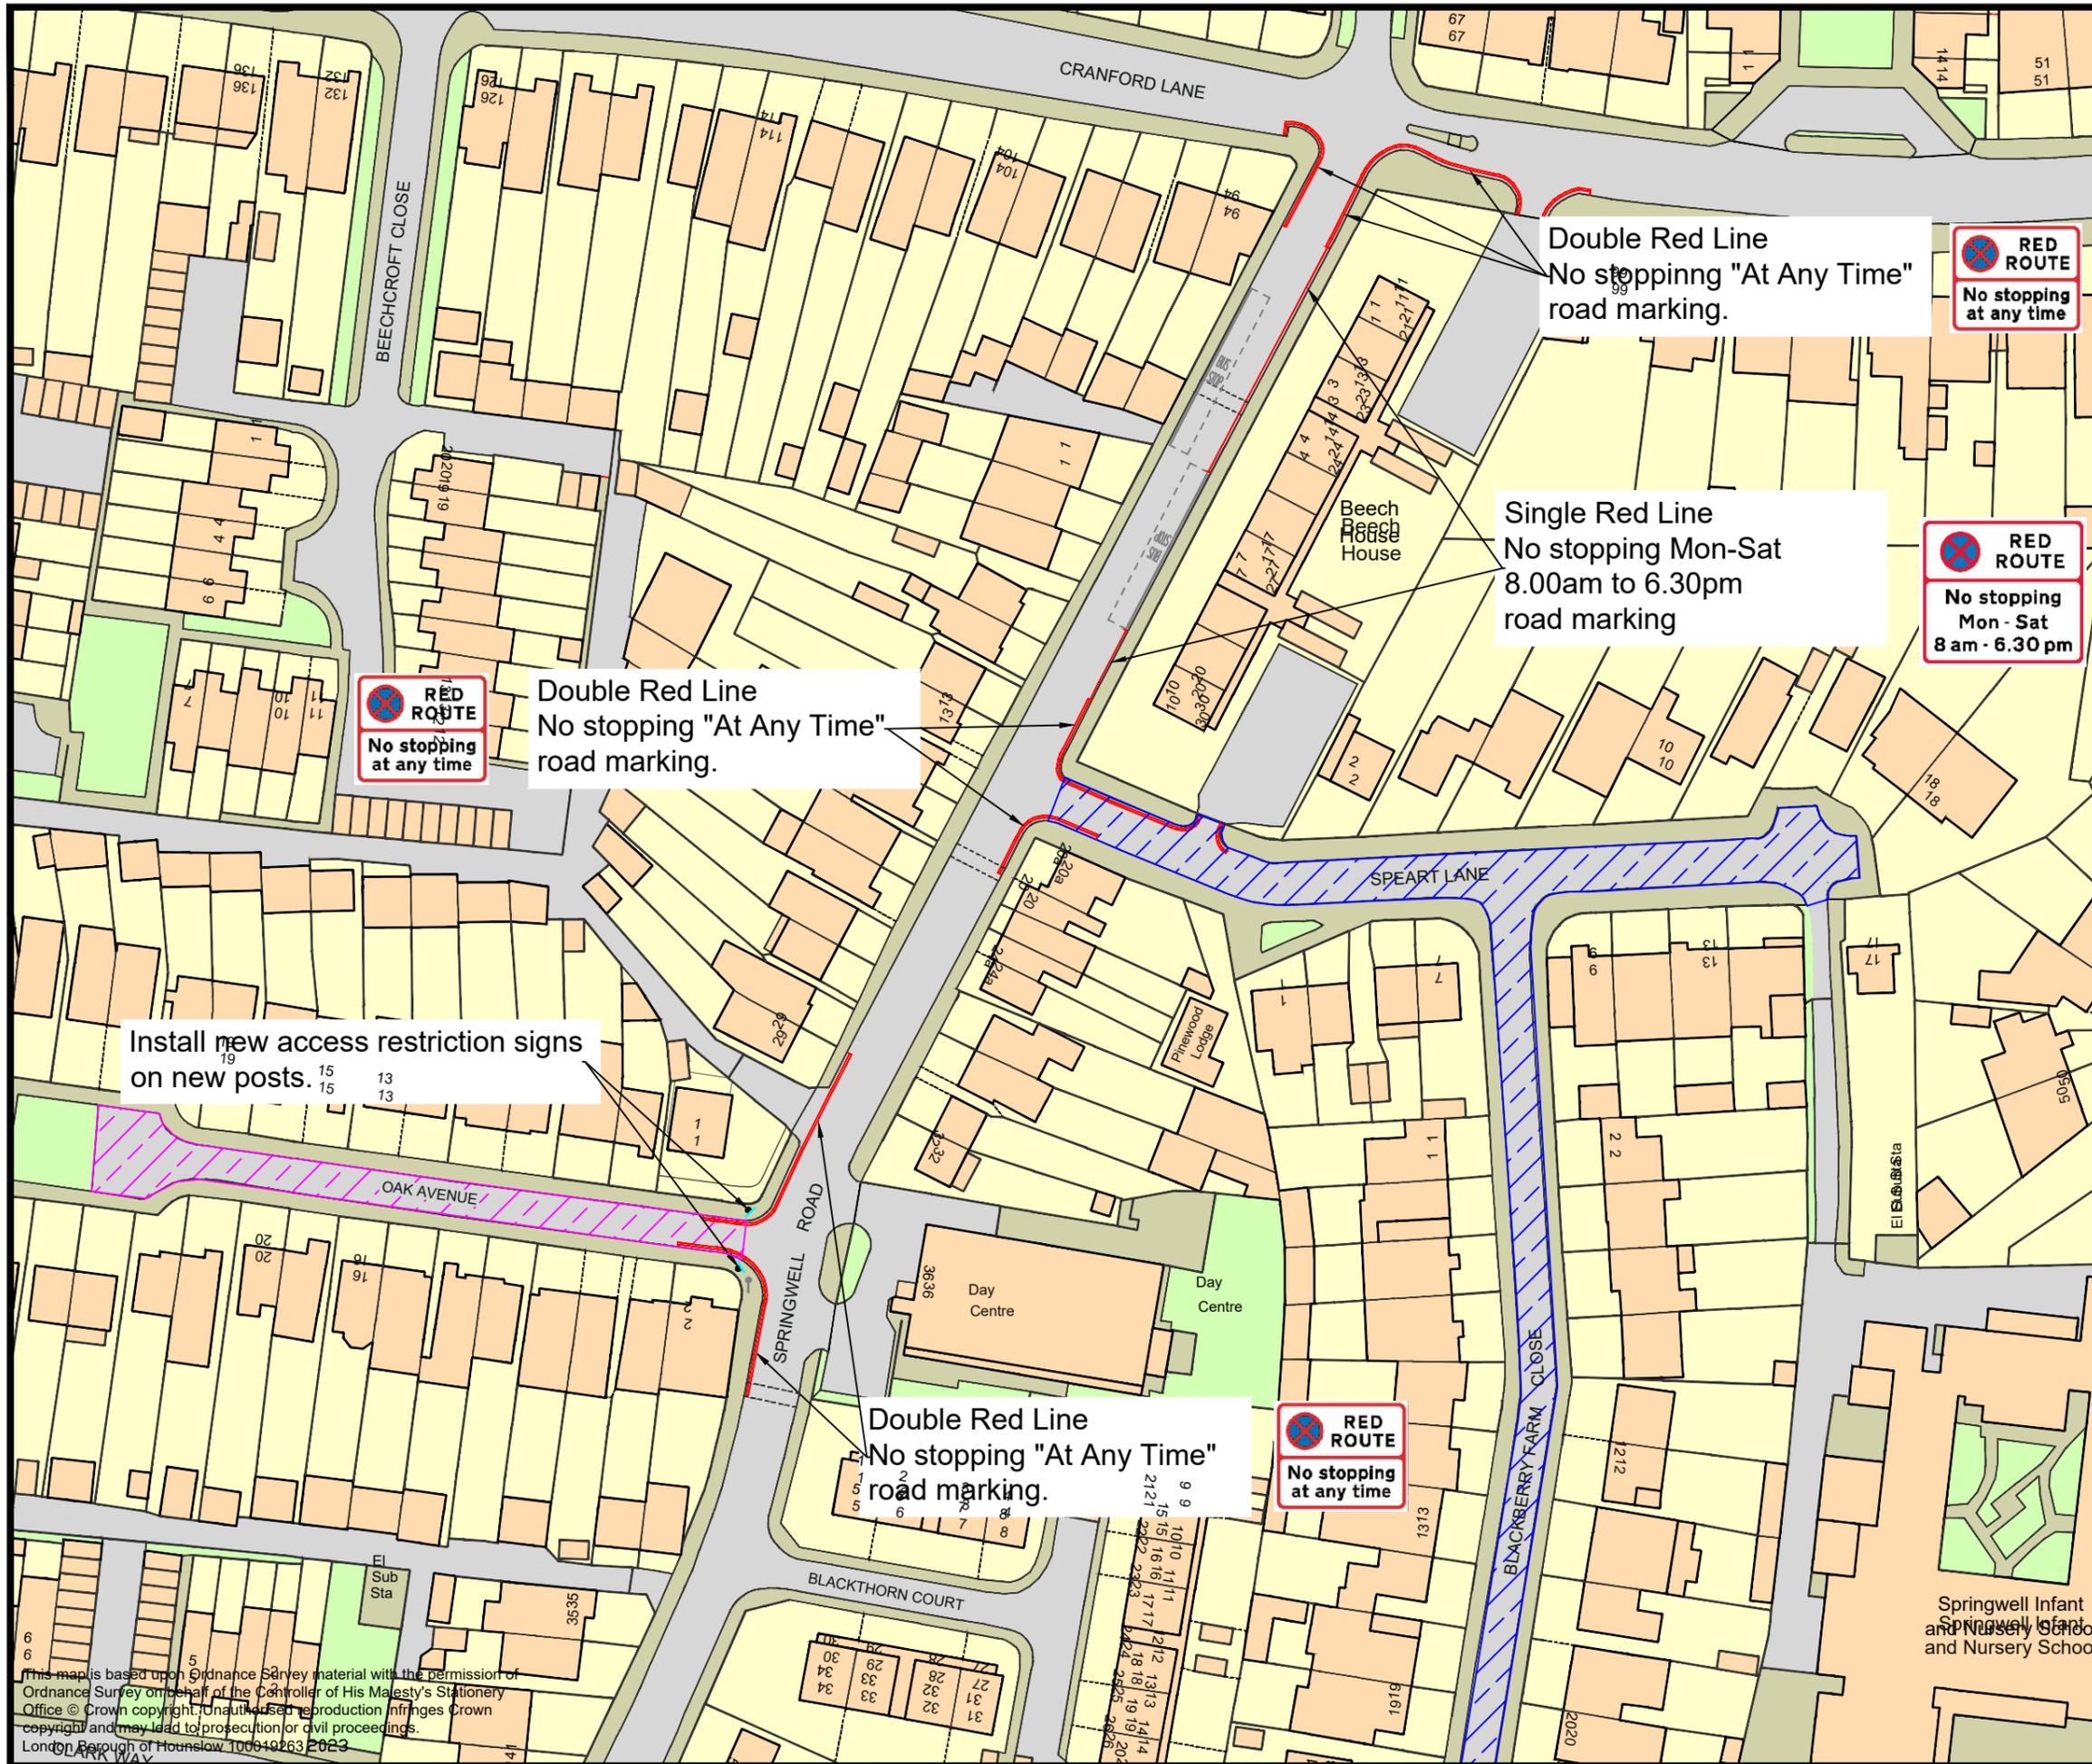

The School Street concept is aimed at tackling problems associated with traffic around schools at drop-off and pick-up times, notably road safety concerns, poor air quality, and inconvenience to residents, by restricting motor traffic access in the immediate vicinity of a school access.

The restrictions are aligned with Hounslow Council's aim to promote active and healthy communities by:

- Improving road safety for pupils, residents and visitors to the borough;
- Reducing pollution in the area, including particulates, which especially impact young people;
- Increasing walking, cycling and active lifestyles – and decreasing motor traffic journeys - by pupils and their parents and guardians;
- Minimising anti-social behaviour arising from inconsiderate parking and dangerous manoeuvres.

The proposed new red route controls, replacing existing yellow line waiting restrictions, at the junctions of Cranford Lane, Oak Avenue and, Speart Lane with Springwell Road, Hounslow and on the eastern side of Springwell Road between Cranford Lane and Speart Lane, are designed to complement the school street restriction and prevent displaced parking causing an obstruction to pedestrians and traffic flow in these locations.

Red Route controls place strict limitations on parking, by preventing not only waiting and loading, but also stopping. Red Routes can be enforced by CCTV, unlike the existing yellow lines they would largely replace, providing more deterrent against contravention, and are considered appropriate in this location, where short term parking for drop off and collection at the school has been observed.
