Where will the tables & chairs be stored at the end of trading hours?  Inside the restaurant

Further information

Outline how the table and chairs will be managed. 

They will be layed out at the start of the day by the staff and arranged in the format detailed in the plan. The row closest to the building may be reconfigured to account for larger groups of people, but never in a format that would overstep the distance from the building detailed in the plan (2.8m).

Outline how local nuisance will be managed. 

The chairs and tables are not to be reconfigured by patrons of the establishment at any point. No configuration will be permitted that encroaches on the public walkway and ample space will be left for traffic both ways to pass simultaneously, including space for buggies and mobility scooters.

Will the placement of the table and chairs allow for people to pass with a minimum of 1.5m+?  Yes
