No. of submissions: 5	<u>Summary of objections</u> - Excessive density and poor quality of accommodation. - Support parking but the spaces are not accessible due to the turning angle. - Increased parking stress and traffic in the area. - New building would be out of character for the road and area. - Site is at a busy junction and works would be unacceptable here and result in health and safety issues. - Conservation concern. - Object to a basement. - Loss of green space and trees. - Object to the roof lights on the NW roof due to light spill to neighbouring properties. - Daylight and Sunlight assessment should be included. - Conditions regarding the visibility splay, obscurely glazed windows, and parking permit restrictions from the previous approval should be re-applied. - The front light well is not necessary, not a characteristic feature of the area, would be an eyesore, and extend more than 1 metre. - Poor outlook and cramped substandard living accommodation. - Loss of light and increased feeling of enclosure to neighbouring properties. - The communal amenity and forecourt hinders the conservation area as it would be cramped, and out of keeping for the road. - Insufficient details pertaining to flood risk and sewage. - Proposed boiler flues would raise health and safety concerns. - Proposal does not meet standard building regulations including size and lack of light to the basement area. - Front area would attract gatherings and social disorder. - The front boundary wall should be in keeping with the rest of the road and the 1m wall is at odds which would create danger to pedestrians and drivers. <u>Summary of reasons for approval</u> - No harm to the character or appearance of the site or wider area. - No harm to neighbours' living conditions. - No harm to the highway network.
