PENDING DECISIONS LIST

WEEK 50 2025

12 December 2025 to 19 December 2025

HOUNSLOW SOUTH, ISLEWORTH, OSTERLEY & SPRING GROVE AREA

Minor & Householder Applications to be recommended for Approval with objections

Item	Address	Ward	Ref. No.	Case officer details
1	Garages to the North of Constable Gardens, TW7 7NH	Hounslow South	P/2024/2718	nathan.ringer@hounslow.gov.uk
Proposal	Erection of 6x two storey semi-detached dwellings consisting of two bedrooms with associated private amenity, car parking, landscaping, cycle and refuse storage following the demolition of the existing garages.			
No. of submissions:	<u>Summary of objections</u>			

14

- The development would cause significant stress to on-street parking within the area due to the loss of garages and associated parking area.
- Disturbances during construction.
- The development would compromise the existing refuse strategy, with refuse vehicles currently using the site to access Constable Gardens and Munnings Gardens.
- Loss of access to back gardens.
- Overdevelopment of the subject site.
- Loss of daylight and sunlight, and privacy.
- Increased sense of enclosure and loss of outlook.
- Increased noise and disturbance.
- No access for emergency vehicles would be provided.
- Harm to highway safety.
- Increase in pollution and congestion.
- Harm to adjacent trees, ecology and biodiversity and tree protection measures will be required.
- Failure to comply with 10% Biodiversity Net Gain
- The proposed access into Gainsborough Gardens would facilitate future development.
- Asbestos is present in the garages and site clearance could cause risks to public safety.
- Disruption to water, electricity, and sewage utilities.
- Damage to neighbouring properties.
- Inconsistencies and errors within planning documents.

Summary of reasons for approval

- The principle of development on the site to demolish existing garages and provide affordable housing is supported.
- While there would be a shortfall in private amenity space, each new home would be oversized and would have access to the communal areas within the site. The proposal appropriately balances the need to deliver housing of suitable quality, while facilitating the necessary access and associated works, and is not considered an overdevelopment of the subject site.
- The proposal would avoid harm to the living conditions of neighbouring properties in terms of daylight and sunlight, privacy, outlook, and enclosure, would enhance the appearance of the subject site and wider area, and would provide a suitable standard of accommodation for future occupiers.
- The proposed development would result in local parking stress reaching 74% of local capacity, below the 90% threshold recommended by the Lambeth methodology.
- Swept paths have been provided to confirm access would remain for emergency and servicing vehicles.
- Updated plans and documentation have been provided to address to errors/inconsistencies contained within the Transport Statement.

	<ul style="list-style-type: none">- A Construction Logistics Plan will be secured prior to commencement of development to ensure that disturbances are minimised as much as practically and reasonably possible. Further conditions will also secure, amongst others, tree protection measures, controlled parking zone restrictions for future occupiers, and final hard and soft-landscaping details.
