

NHSPS Response to Post-Hearing Note EX57 – Post Stage 1 Hearings Version of the Schedule of Suggested Modifications**Modification Code: HLP_SA101_0_1 – 101 The Brentford Group Practice**

1. This response follows a representation submitted at Regulation 19 stage, in which NHSPS sought modifications to Site Allocation 101 – The Brentford Group Practice.
2. As drafted, Site Allocation 101 details the site allocation requirements for 'The Brentford Group Practice'. NHSPS owns the freehold to the site subject to the proposed allocation which is officially named as 'The Brentford Health Centre'. The 'Brentford Group Practice' is based at the Centre alongside NHS services.
3. The Schedule of Suggested Modifications (June 2025) proposes amendments to the site name in line with NHSPS' representation at Regulation 19 stage for the site name to be amended to 'The Brentford Health Centre'. We note this has also been reflected under the Post Stage 1 Hearings version of the Schedule of Suggested Modifications ref. HLP_SA101_0_1.
4. For the purposes of accuracy in the interpretation and identification of the site allocations of the Local Plan, NHSPS support the proposed modification which renames Site Allocation 101. While these proposed changes are welcomed, NHSPS do not consider Site Allocation 101 is positively prepared and effective and reiterate that further modifications are required to provide the NHS with sufficient flexibility to enable the delivery of the required local health facilities and services, as set out within our Regulation 19 response.
5. Further comments on the required modification are set out within our response to the Matters, Issues and Questions (Stage 2 Hearings) – Matter 9, Issue 1, Qu. 7 and 8.
